

An Explosive Happening & the Border Wall Plan 6-28-26@1:04 PM Video 6-30-26

"Daughter, I wish to speak with you again." "I'm here my lovely Lord Jesus Christ."

"Shortly to come as if on the swiftness of eagles wings, an explosive situation shall occur Daughter within your nation's land. This is a non-nuclear event, but the threat is real. Look for security to be increased and travel difficulties to come before the grand fireworks display for a nation can be watched by all."

Daughter, this shall be a catalyst, a catapult moment before destruction's hand fully falls upon evil, wicked Babylon-America whose borders are no more secure than when Joe Biden was in office. After all, what good are borders when access from underground is granted daily to your nation's enemies."

"Daughter understand this lineup for the truth of what has been done.

Trump is in office for the first time and makes a big deal of border security.

Biden is in office, tears down the border walls causing panic to the nation's people who until Trump had made a public show and awareness in his first presidency, very few paid attention or cared.

Enters President Trump again, elected into the presidency. He begins reimplementing border security and rebuilding the wall. He creates the government division called ICE. Now think back to the last 4th of July, your nation's Independence Day. What happened?"

"Lord, President Trump signed in a pompous ceremony, even before the public official celebration began, the one big beautiful bill that allowed him to take away our freedoms and make our nation like a police state. We lost our true freedom last year as people even before the fireworks went off."

"Yes Daughter, but look further. What technology have I shown you was inside the one big beautiful bill, Daughter?" "The surveillance technology now made into law that would be used by antichrist to hunt down the Christians and others, and to control the world in the beast system government. All connected by the demon possessed AI systems across the world."

"Yes, Daughter, yes. Now realize how it was played out before the world with the leaders all working together."

"1. Create awareness of the border situation and stress the need for protection of the people and land. Then build a border wall with law enforcement patrolling it. Stage one was implemented by President Trump during his first presidency."

"2. Stage 2: Have another president come into office to reverse as much of the border security. Have the illegal immigrants some real, some acting begin creating heinous crimes causing fear

and alarm in the people. Do as much damage as you can so that when the next president who is elected can rebuild with more freedom and less protest. This was Joe Biden."

"3. Stage 3: President Trump is re-elected and almost immediately begins working toward repairing the borders of America-Babylon. The people are happy, at least most, until the ICE raids begin and the deportations. All to make it look legit when in fact it was a three-stage plan to bring in the surveillance systems and laws that cost your nation's people its privacy and freedom and prepare your lands for the antichrist's control."

"This year the fireworks begin early, but I assure you things are about to occur swiftly. Let's see who is singing your national anthem when I'm finished. This will cause your nation's president quite a concern because he knows the threats of the Iranians to take his life are real."

"So, look Daughter look, watch and wait for an explosive happening to come shortly to your nation's land that will be a headline grabber, and attention getter." "I will, Lord Jesus Christ."
