All is not what it appears in the south and the eagle has many enemies hidden within, in close proximity.” “The eagle, God, we, this nation, we are the eagle aren’t we?” “Yes, Child, for America was once proud and free as the eagle soaring and flying way higher than any other birds. For your country prospered much under the guidance and leadership of My Almighty hand when your nation’s people as a whole followed Me. They served Me, worshiped Me, and loved Me and I, I showed them My love and showered them with My many blessings and favor. While I was their God they were under the protection of My wing but as the people of other nations came flooding in, instead of witnessing to them about My love and what My Son Jesus did for them when He allowed Himself to be crucified at Calvary, you, My people turned from Me and ran toward these people with their strange gods and religions and embraced them fully, removing Me off the pedestal of your heart and placed theirs where I belong.

Woe, Child, Woe to the eagle who can no longer soar upon the wind above her enemies for her wings can barely withstand her own weight and she soars within the sight of the enemy vulnerable to their attacks. For when you began removing Me out of your hearts, your homes, your schools, your lives, and even your churches I began stepping back and withdrawing My great protective wing which once shielded her, America from danger. It’s only through the prayers of former saints, true believers of Me that mercy and grace were granted, were extended for this long of a period of time.

Missiles from distances far shall strike with great force and velocity upon the sleepy town, the city of Oak Ridge Tennessee. Their target is the facilities that hold within them the large mass amounts of uranium. This is as you call it the Y-12 Nuclear facilities. Although held in its somewhat new buildings of superiority, when struck by the force from the warheads from the bear who joins Persia shortly after their declaration of war, the very walls will fold like paper under the sheer force of the impact. For these missiles are armed with the destructive power of the nuclei. You must write Child. Do not let this information cause you to be overwhelmed.”

“I’m sorry God but it still overwhelms me for You are currently talking about what we call nuclear war, and it, upon hitting its targets shall wipe out all land, buildings, creatures of the earth, and many, many people who will all die at once and many more following after from radiation sickness and fallout. What hurts my heart the most is that most of them will go to hell all at once and all together without much time to repent. God, it just really troubles me within my spirit for if they already store large amounts of this uranium in these buildings and then they are struck by nuclear missiles then this would create massive explosions and fallout would it not?”

“Yes, Child, for many, many of your miles it shall spread. Child it will be as I had you look up on what you call your internet. The destruction of these facilities shall cripple America in her abilities to make compatible combatants weapons like the other nations currently have.”
