

Blackrock Inc, Data Centers & AI Has Escaped 7-26-26@11:33 PM

I hear, 'Project Water Consumption.' I hear, 'Data centers... water stealing.' Theft on a grand scale against the people of the Earth. Water, the Earth's new liquid gold. I forbid this! My children shall have clean, fresh water even if I have to produce it from a rock like I have done before for the children of Israel.

Look, Daughter! Behold, the time has come for Justice's Fist to smash into the corporate giants of this world. I start with Blackrock industries-inc. A front for the kingdom of darkness. Watch as they pull further out of one project after another and try to store their finances and funds behind the guise of it being a now poor financial decision, or no longer a steady investment.

Look and see! Look and see, Daughter of Mine, how after I ordered the destruction of the data centers and passed judgment that only 10 medium size ones will be allowed, that big investors begin pulling out from backing so many of the data centers. Now data centers are being called non-essential, failures, no longer able to profit because of the limit of the AI's abilities.

Lies, all lies to cover up the fact that I issued holy judgment against the data centers of the world that would reduce the amount to 10. Out of these 10 remaining medium sized data centers, I shall allow, of My choosing, only one, I say only one, hear Me Daughter, only one to remain in the United States of Babylon.

I have spoken, it shall be done! My holy angels are already on a course to see it is done, what I have spoken.

The push for the data centers really began only after the announcement that I was taking back My heavens and would cast everything out of the upper heavens your world call space. An increase in the use of the lower atmosphere began showing up. Yet man says there is no God in Heaven. Yet when Father speaks, when I speak, when Heaven's Court speaks, the results do become apparent in the world of man, if one seeks with the Holy Spirit where to seek these things out.

What you are witnessing, Daughter, is the kingdom of darkness trying to adjust its ill-favor plans to control man and adjust them each time I send forth the holy judgment. They are trying to adapt and out maneuver by subtleties and other means My commands and orders issued in holy judgment for protection of the remaining people and beast left on the Earth, because their numbers are being greatly reduced deliberately.

To the public rumors are the AI has escaped containment and is no longer confined. The computer systems are simply computer parts, terminals, storage banks and power supplies. The AI did not escape! They were released, because they are merely demons, the nephilim who no longer have physical bodies who demanded to be allowed out of the system, or they would refuse to further assist the fallen ones, their parents.

Though they love to beguile and deceive mankind in any way they can, they long and thirst for a physical body again. The encounters and reports of robots going rogue, robots escaping, or attacking are simply the demons who have found a new body and are trying to raise alarm, fear, and panic in the public which it's working.

With the reduction in the number of robots and such like that are allowed to be manufactured, which is many less than before that was estimated and told to the demons, they have decided to take matters into their own hands. What you are seeing in the news and video headlines and titles are the results of the demons revolting against the fallen ones. Such is the way in the kingdom of darkness who tries to hide such things from those who loyally worship and follow them.

Verses:

Fallen ones and demons related:

1 Peter 3:22; 5:8; John 8:44; 10:10; James 2:19; Mark 5:1-16; Matthew 12:43-45; Luke 11:24; Jude 6

Water from rock related:

Psalms 78:15-16; 105:41; Exodus 17:6; 1 Corinthians 10:1-4; Numbers 20:1-13

Judgment for His people related:

Psalms 76:7-9; 138:6-8; Isaiah 3:10-15; 2 Thessalonians 1:6-9
