

I Take from the Earth 3D Holographic Technologies 4-28-26@12:10 AM

"Daughter, I have somewhat to say, this day." "I'm here, my lovely Jesus Christ."

"Lucifer has a grand show planned in the skies for his grand alien delusions. The deception of fake aliens coming to your world. I'm about to shatter their illusions with a dose of reality and Heaven's truth." "I'm listening, my Lord." "Take this down Daughter, for it's already recorded in the records of Heaven." "Okay, my Love."

"When the Black-Rock Magnetic Mountain fully shatters, located in the center of the earth's foundation, then all the tones, notes, vibrations, tunes, frequencies, waves, lights, colors, and all such like things that the Earth's atmosphere and upper heavens are created from shall become altered. Lucifer and his kingdom will have to bring their alien deception to your world without their holographic 3D aerial technology and electronics."

"I take from your world and nation this technology. Your use of lasers and lights, wavelength, your plasma, wavefront controls, all these things that bring deception into the sky. I take these things from you, lucifer, in holy judgment; Your abilities in every nation, every location inside this firmament, the knowledge and ability to utilize such like as what's found in Babylon-America, that which you have tried to keep hidden: Project Blue beam. This is just one of many across this world from Japan, to Israel, to Australia, to the Netherlands and such like that possess such knowledge."

"These things run on light synthesis, color variants, pitches, tones, 'frequencies and waves,' vibrations, wind current, wavelengths, refraction of light, and so much more. I would know, I created this world. It is written in My Scripture of Truth that the whole world would worship the image of the beast in Revelation, divided into the 13th chapter. One image, not many!"

Therefore, you are limited to the ships you have already prepared that's beneath Antarctica's Island of Meeting location. You still have your 10 allowed sky, cloud cities which many will think are alien ships when you finally quit covering the sky with clouds that have been done to poison the people, the land, all life, including the water supplies, but also to allow the cloud cities to travel from place to place under the cover of the phony clouds in the sky you have created."

"The holographic technology when used in the sky uses all the invisible things found in the air. These things which I created. I own the sky, the air. I own the heavens. I own the Earth. This world is Mine and all that's in it and I've come to reclaim it in the Name given to Me by My Father that's above all other names, so He shall be glorified in Me in the works I do."

"How quickly you forget, kingdom of darkness. At the beginning of the tribulation period, at the time of the three days of darkness when the nephilim and all hell are released, it's also at this time when the Black Rock Magnetic Mountain shatters. This shall be the sign to My waiting Angels to remove the wind off the four corners of the world, the Earth."

"Hear Me kingdom of darkness, I do this now! I take it now! You have other means whereby you can still bring your alien delusion to this world." "What exactly does this mean Lord Jesus Christ?" "It means Daughter, there will be no Project Blue Beam technology allowed once the Black Rock Magnetic Mountain explodes for your broken nation of America-Babylon, no Project Tiger Eye, none of these types will be allowed to operate and exist for any nation! They will have to revert to the older ways of doing things."

"In addition, on behalf of My children who shall be left behind and others, I decree in Holy Justice, there will only be allowed 10 medium size data centers of My choosing for lucifer to build and use in its beast system government. This includes those already built in this count. Lucifer, this is non-negotiable and they will not be heard any appeals. This is just, fair and ministered in holiness."

"Now Daughter, you are to prepare this word to be released in the following hours at the time I instruct you to do so." "Yes, I will, my lovely Jesus Christ."
