**It's in the Air! 1-14-24@ 1:40 PM**

Now look at the results of a world that is controlled by sin. Even your very atmosphere, the air you breathe has become polluted by so much toxins, with most being deliberately done by your enemy. But it's not only polluted, it has now become poisoned.

**I Bring Justice For the Poisoning of My Creation 11-24-25@6:01 AM**

Lucifer....Council of 13... Hidden Secret Society..... You treat My people I created like livestock that have no rights. You poison their air, their water, their food, not concerned with those that become stricken or weakened, as you seek for only the strongest to survive, to be your puppets and part of your new world to come.

I see your evil doings. You poison the air, the water, the food, you poison the fish, the animals, so man does not have a viable food supply, and will have to be dependent on your united one world government for food.

Air pollution and drinking water aren't as clean as you think. Fine particulate matter (PM2.5) enters the bloodstream, inflames arteries, and raises heart risk (Circulation, 2010). PFAS "forever chemicals" in water disrupt immunity and are linked to cancer.

Dr. Amin Hedayat, MD, breaks down the hidden risks—and how toxins drive inflammation.

The Jimmy Dore Show • 126,977 views Nov 19, 2025

Jimmy and guest Kim Bright discuss a large new study linking air pollution to higher breast cancer rates, arguing that microplastics in the air, water, and food supply are a major driving force behind rising disease. They highlight warnings across California, Oregon, and Arizona about unhealthy air quality and criticize political leaders for ignoring particulate matter while focusing on other environmental issues.

"This isn't Fog": A Community Breathing Toxic Air from a Coke Plant

Photographer Annie Hangan went to Clarion, Pennsylvania, where residents live in the shadow of the country's largest coke plant. Coke is a product used to manufacture steel. ProPublica's investigation showed that levels of benzene, a cancer-causing gas, were 37 times higher than what the facility reported in the past.

The Trump administration has halted efforts to monitor for benzene near large industrial plants like this one, leaving communities in the dark about the air they breathe.

This is what Annie saw — and inhaled — while on assignment in Clarion.

**INTRODUCTION**

UP UNTIL ABOUT 6 WEEKS AGO, OUR RESEARCH GROUP PERFORMED PATIENT BLOOD ANALYSIS THAT WAS MORE OR LESS CONSISTENT WITH POST-COVID SYNDROME, BUT NOTHING HIGHLY UNUSUAL. HOWEVER, SUDDENLY AFTER SIGHTINGS OF 'TOXIC FOG' WERE REPORTED, WE BEGAN TO SEE A MARKED INCREASE IN PATHOLOGIC NUCLEAUS FORMATION, AGGREGATION, AND UNUSUAL FINDINGS. WE ARE CONTINUING TO SEEK EXPERT MICROSCOPY OPINIONS FROM OTHER MEDICAL PROFESSIONALS BOTH WITHIN AND OUTSIDE THE UNITED STATES. GETTING TO THE POINT, THESE EXTREME FORMS OF BLOOD ROLLAUX AND AGGREGATION ARE INCONSISTENT WITH HEALTH AND COULD LEAD TO SERIOUS BLOOD CLOTS AND OTHER SERIOUS HEALTH PROBLEMS. THE TIME TO ADDRESS THIS IS NOW. IF WE DELAY, WE COULD SEE A MASSIVE SPIKE IN VASCULAR PROBLEMS, INCLUDING STROKE, MYOCARDIAL INFARCTION, AND SUDDEN DEATH. ANY FEEDBACK IS APPRECIATED. THANK YOU.

They've sprayed before and they didn't always tell the truth.

From Agent Orange to DDT to Operation Sea-Spray, history proves that toxic chemicals have been released into communities without consent.

They call it geoengineering and cloud seeding, but how much do we really know about what's in our skies today?

Skepticism isn't fear. It's awareness.

A dense fog has blanketed California's Central Valley for days—but residents say it smells chemical, tastes metallic, and won't dissipate. In this report, I look at the fog over the farm fields, the atmospheric conditions, and the patterns that suggest this isn't behaving like normal fog. Fog doesn't create toxins—it reveals what's already in the air.
