

Israel's Iron Dome Dream 2-28-26 @2:18 AM Shared 3-1-26 Partially Confirmed 3-8-26

This dream was on 2-28-26. N 2-28-26 Israel & US struck Iran. The same day as this dream. Many of Iran's missiles and attacks are getting through Israel's Iron Dome.

<https://researchbriefings.files.parliament.uk/documents/CBP-10521/CBP-10521.pdf>

While all the people were still huddled in fear, suddenly I heard a voice say, “Should not My chosen people trust in their God? This is a stiff-neck, hard-hearted rebellious people in the land of Israel who trust in their Iron Dome system for safety and protection over the hand of their God and Creator.”

...What is this I'm seeing?” Suddenly I heard a voice behind me say, “Daughter of Mine, this is one of the Iron Dome Defence systems.” I turned around recognizing His voice and there I saw my lovely Jesus Christ....

He looked at me and said quietly, “**This is one of the Iron Dome control systems of Israel....**”

My lovely Jesus Christ turned and faced me directly as He said, “The people of Israel have put their faith and trust in this piece of technology from the fallen ones which only has a 90% success rate. Daughter, I'm 100% successful, 100% accurate and I am 100% unfailing. The AI is not 100% anything except inhabited by demons. The devil will never be anything but 100% a liar and a thief. Nothing can be 100% accurate, not man, nor technology or science, except Father God and Me and We are perfect and unchanging in all Our ways. Yet this is where Israel's people who are stubborn and rebellious have chosen to place their hopes and trust,” He replied passionately. “I'm sorry my Love,” I said softly. “What can I do? Why are You showing this to me, Jesus Christ,” I asked? “**Because, Daughter, when man puts their hope in anything but their God, then it's going to fail.**”

... This is in a future time to come. As it is foretold in the written Word of God, the Scripture of Truth, Israel will be surrounded and invaded in the Battle of Gog-Magog. **How can they do so with Israel possessing such technology as the Iron Dome?** Or their many other layers of protection, such as David and his sling of arrows? Daughter, I am the Protector of Israel for those who are faithful to Me,” He finished saying.....

Iran Has 'Broken the Myth' of Israeli Military Power: Former Pakistani Envoy

Sputnik | March 6, 2026

Iran has effectively "broken the myth" of Israeli military supremacy, Asif Durrani, a former Pakistani ambassador to Iran and the UAE, told in an interview with Sputnik. Despite decades of investment by the United States and Israel in advanced military technology, Iran successfully penetrated the much-vaunted Iron Dome defense system and struck Israeli installations, Durrani noted.

Durrani also condemned the assassination of Iranian Supreme Leader Ayatollah Ali Khamenei, describing it as a highly dangerous escalation. He stressed that such a direct attack on the leader of a sovereign state sets a perilous precedent, one that has not been seen in previous global conflicts.

"Regime change should be in the hands of the Iranian people. No other country has the right to exercise that right. In fact, such attempts are likely to lead to further bloodshed and destruction in Iran," he affirmed.

Durrani pointed out that despite 47 years of US efforts to topple the Islamic Republic since the 1979 revolution, those attempts have consistently failed. He added that there is currently no sign of a viable internal alternative to the existing government.

Commenting on Pakistan's reminder to Iran of its alliance commitments to Saudi Arabia following Iranian strikes on Saudi territory, Durrani noted that Pakistan and Saudi Arabia share a historically close relationship. They have signed a strategic partnership agreement under which an attack on one is considered an attack on both. Nevertheless, he emphasized that Pakistan maintains a longstanding policy of promoting cooperation among Muslim nations and expects disputes to be resolved peacefully, particularly with regard to the Sunni world.

The former envoy expressed confidence that Iran will provide an explanation for its decision to strike American bases in Saudi Arabia. He noted that it is understood that if a country hosts military bases, those facilities may become legitimate targets in times of war.

"I hope there will be explanations coming from Iran as well as Saudi Arabia," the diplomat concluded.

Early reports and eyewitness accounts suggest at least two Iranian ballistic missiles made impact in central Israel, though Israeli authorities said there were no immediate reports of injuries. The IDF said most missiles were intercepted but acknowledged some projectiles may have landed in open areas. Events played across Tel Aviv and southern Israel in separate salutes. Israel jets struck western Tehran overnight, reportedly hitting an airport. Eight Israeli soldiers were wounded by Hezbollah rockets in northern Israel. Hezbollah has been targeting Israeli defense infrastructure including Iron Dome radar sites, Arrow batteries, and Rafael Advanced Defense Systems facilities. Lebanon's health ministry said

Alternative News @AlternatNews

Ten Iron Dome interceptors (Tamir missiles) fail to hit one single drone from Iran.

This way Israel is running out of Tamirs soon. The Iron Dome is not "iron" at all.

This is worrying Israelis more than US losses.

The ongoing conflict between Israel and Iran has triggered a discourse over the combat efficacy of the venerable Israeli Iron Dome air defense system, with one camp praising by its capability and another mocking it for failing to defend the capital, Tel Aviv.

The Israel-Iranian conflict began on June 13 with unprecedented airstrikes on Iranian nuclear facilities and top military leadership under Operation "Ring Lion".
