

The Suddenlies & Oktober 3 Calendar Vision 9-21-26@1:57 PM Shared 9-22-26

"Look, Daughter, look! What do you see?" "I see dominoes. White, smooth dominoes with black dotted numbers that are being set up by a man's hand. Now I see before him a vast setup of these dominoes. I only see the man from the neck down. He's working on a table that's elevated above some of the other dominoes.

I see.... I can tell by the way he has drawn himself back from the table, he has set up the last domino and is finished. I see, I see the man is dressed in a light blue button up shirt. I can't see his face yet, it's as if it's blurred, but his hair is now visible. I see that it's more gray than dark, and is parted on the right side when facing him. It's cut short but his bangs are in place but longer than hair that's cut in short layers.

Lord Jesus Christ....I see his eyebrows. They are bushy and match the color of his hair, but the features of his face are still blurred. He's speaking. He's saying, "The suddenlies, the suddenlies." He's reaching out his hand for the last domino he set up on the table. He knocks it over and they all begin collapsing one right after another.

I see what has suddenly appeared behind him to the right over his shoulder is a square white paper calendar. It has a copper coil wire holding it together. "Lord, why a copper wire?" I see.... I see now forming before my eyes the name of the month of the calendar. The man is speaking again. He's exclaiming in a joyful voice, "The suddenlies, the suddenlies! They have begun with an earth-shattering bang. I can hear the clicking of the dominoes as they continue falling.

I see...I see... now the calendar's name. It is the month of October but October is spelled with the k instead of c. O K T O B E R. I can see there is a date, a number that's circled on the calendar in red. It is the number three. All the numbers are in black including the number three circled with red. So Oktober 3 with a K is marked. The man jumps up suddenly but I still can't see his face.

"Lord Jesus Christ, who is he?" I see him still from the neck down with him standing. He reaches into his pants pocket. He has keys in his hands. I see him lay them on the table. He's reaching again into the same pocket and pulls out what looks like a piece of paper. I can see it's some sort of odd shape and has a picture on it that I cannot clearly see yet. "Lord Jesus Christ, what's he doing?" "Watch, Daughter, watch."

Lord, he's holding the paper up intently and examining it. He's looking at one side intently and now he's doing something with part of it. I believe he's peeling something off. It's a sticker, I believe it's a sticker. Yes it is. I see him separate the two pieces of the sticker. He's reaching his hand over toward the calendar and he places it directly on the circled day 3. Now he's stepping back. Now I see, stuck permanently to the Oktober paper calendar the sticker and the picture it displaying looks like an explosion. I see it! I see it! It says Kaboom in big black letters with the colorful explosion behind it.

I hear thunder, Jesus Christ, I just heard real loud booming thunder outside.

"Daughter, it is established. The sticker cannot be removed. This is the appointed time specified. It has come and it will not change this time. For there is nothing that you possess in your world, not even applied heat that would allow this adhered sticker to fully be removed from the date."

"Oh, oh .."

"Lord, who is this man I still see standing before me? He's reaching for his keys, his car keys."

"He is one of the hidden sleeper cell units that you have seen before. This one shall not only aid in these nuclear happenings but he is also one of those that shall aid in the 10 hidden suitcases to come in the evil, wicked nation of Babylon-America. This date is for your nation Daughter, but shall affect the whole world as Babylon-America is finally sent to her knees.
