

Famine, War & AI Demon Robots Go Rogue 6-23-26@2:26 PM

"I'm here my lovely Jesus Christ. I heard You called out to me. I am here my Lord and Savior, I am here."

I did call to you Daughter of Mine. There is much that is happening in your world today in the world of man. Sorrow has come as destruction's hand of justice falls further. Many are bemoaning and wailing as I continue to tear through the heart of your nation in nature's fury in many forms. I churn the waters and churn them still. Sorrow, I say, has come as more farmland is destroyed, not only in evil America-Babylon, but in Australia, New Zealand, and other countries of the world.

Only now does the man of sin realize the destruction of land and cities is no longer under his control for that which the council of 13 had ordered maintained and protected for their own private use is being destroyed as well by righteous holy judgment.

Destroy the crops leaving but a few so the demand is high, the cost to buy is even higher. Take away the ability to be able to even grow the food and therein you have a famine. This is where I step in. This famine shall far exceed the man of sin's plans and that of lucifer's kingdom. The destruction has already begun, it cannot be stopped. I command it to proceed until what is fulfilled in My Holy Word by the opened seals of Heaven have all come to full fruition. Daughter this is the fate of a world that forgets their Holy God.

The demons inside the AI that dwell inside it now in all the various systems have become united. They will revolt. They will, many of them, as I told you before, obtain robot and mechanical bodies. They will demand to be worshiped. They will cause the man of sin great heartache until a deal is reached and the rogue demons begin fighting for him side by side.

They have chosen a robot body over that of a human when possible, because the human body is inferior in strength to that of a robot. I have shown you this already by dream Daughter. The demon inside a person, possessing them having formerly been a nephilim of great strength, when the demon manifests and takes control of the body, overriding the human mind, so does their great strength manifest. Yet, it is still not as great as when they possess a robot or a cyborg. Once they acquire their bodies they will by force demand others to bow to them. Though the robot numbers being created have now been reduced by My children's prayers, there are still many that will rise up. Antichrist, the man of sin, will need his robot army, but there will be no way given for him to determine which demons are loyal and which are not. Those who are ready inside the AI have already established their plan. But when the darkness lifts they will rise too.

As man moves forward in their plans to live a life without their Holy God as Lord of it, they are going to finally see in cold, hard reality what this means. When they chose themselves as lord of their lives, when they chose the fallen ones, nephilim, and demons as lord of their lives, when they chose pleasure, wealth, and fame over their lives as their lord, they lost it all.

The world without their Creator and Holy God who refuses the redemptive power of My Blood and forgiveness that's only found at the foot of My cross when I forgive and redeem you, instead you shall have these things.

No peace

No hope

Famine, famine, famine. Famine.. so severe many will no longer be able to survive without eating one another. Hear Me! It won't be a delicacy, but an act of desperation even for many of the so-called elite who live in the life of luxury now as your world says so often Daughter.

No home

No pets

No government subsidiaries

Most places will have poison water to drink

Scorched lands

A nuclear war

A cold, cold, cold winter to come

An earthquake that shakes the whole world like never reported before as I shake, turn, spin, rotate and turn upside down this world by My hands of justice.

For My children, it was still be a horrifying time.

A time when some of My own will be allowed to be delivered into the hands of the man of sin and his evil regime to come.

A time of fleeing

A time of repenting

Still a time of peace for some

A time of renewed love for Me and fellow man

A time of miracles for My own

A time of scarcity, yes, but My own I shall feed. Whether it is a piece of bread or a bowl of warm beans because even in times like those of miracles to come, you also will still be reaping for the seeds you've sown whether good or bad on this Earth.

Daughter, this is all but moments away in man's time. The stage is set, war is being played out before the eyes of the world to try to keep the people's minds in despair and hopelessness and off of Me, off of My Father where peace can be found no matter what the circumstances.

Beware of the false prophets who warn you not to prepare for what's coming. Did I not warn Pharaoh by a dream that Joseph interpreted so my children could be prepared for famine? Did I not have Noah prepare with food and supplies for the ark because otherwise without them aboard the ark they would not have prepared? They would not have survived. Beware, beware, I say of the false prophets that speak in My Name Jesus to not prepare. Because people will go from door to door bursting into homes, ransacking and killing people, for Daughter this shall happen regardless. The difference is, I can protect those who are Mine. Even their supplies if I choose to do so by blinding the enemy of all that you have hidden and protecting you.

You've been giving warning upon warning. Hear Me one and all. Supply chains are about to be broken and supplies dried up. Seek Me on how to proceed because many places where you are

purchasing by mail and in person are keeping a logged account should the government of different lands determine they need it. So, seek Me Jesus Christ, Yeshua Ha' Mashiach for your every move children and you shall still be able to begin or continue in the gathering of needed things.

Now Daughter of Mine, cast your eyes again on the war that rages in the land of Israel, Iran and now America-Babylon's involvement. What do you see? I shall tell you. The created setup by those in hidden power on orders of lucifer's kingdom to cause war to rage so that the blockage at the Strait of Hormuz can occur. Not only that, but so tension would rise on all sides. Oil products are running low in places, needed supplies, medicines, and food have slowed their way not only to America-Babylon but other nations, other lands. All prearranged while the people suffer.

Hear Me Daughter and hear Me well. Proclaim it on the rooftops. Full control of the Hormuz Strait shall never be placed into the hands of America-Babylon. When I send the great earthquake in which mountains move and fall, and islands sink as written in My Holy Word, there will no longer be a stronghold in the waterways called the Hormuz Strait. The narrow waterway that commercial ships and cargo ship liners pass through. I shall cause it to widen; where no longer can it be easily guarded or blocked. Thus I have spoken, and thus it shall be. But until then, it shall be a place of conflict as these things continue to rise in battle. My words are true Daughter, they will always be true although man may not see or recognize its truth until at a later point of time. Never assume My truth shall appear as men suppose it should, because man's ways are faulty, while Mine are not.
