

The WhiteWashed Truth Dream 9-18-26 to 9-19-26 Shared 9-20-26

Lord Jesus Christ I dreamed the same dream again I had the night before. The dream, the information all discerns true from You and Father God by me, my son, and others. Do You want me to share this? Lord, You know many people will not accept what You've shown me about the moon unless You grant them Your truth and understanding in these things."

"Lord Jesus Christ open up Your understanding and truth in all things for Your children as Luke 24 says where it speaks of the two men on the road to Emmaus. You opened their eyes, their mind's understanding of how You fulfilled all that was written in the Holy Scripture from Moses to all they had available to them. I asked this in Your great Name for You are no respecter of person it says in Romans 2:11 and other places in your precious Holy Word to do this for all Your children."

"I will, Daughter of Mine, for all who want to know My truths for I am Truth. Now Daughter of Mine please finish writing out the dream and share it without fear that My own will reject it. For those who desire My truth...the whole and real truth and seek for it, shall find it and receive it." "Thank You my Love, I will with Your help precious Savior and Lord of mine." "Daughter, My help is given." "Thank You again." "You are welcome, beloved Daughter of Mine."

This dream began when I found myself looking at a night sky that had stars sparkling all over it. There was nothing but stars. There's no clouds, no silhouettes in the darkness of mountain tops. There's not any flashing lights of planes or towers, or any sign of man's technology. It's beautiful. It's just a beautiful, clear night sky with millions, if not more beautiful stars shining so brightly.

I heard a strong but pleasant sounding voice say, "Ah that's good. Only one more to go," the Man's voice said. I could detect in the man's voice a richness of love and kindness, yet also it seemed full and strong and somehow filled with commanding authority. Then suddenly before my eyes I saw a giant size Hand reach down and place one more star that seemed to shine very, very brightly, more so than the others. "There, that completes all the stars and I've given them all their names. Now I shall create the great lights, the luminaries to light the way for all I shall create yet still, of man and beast and all life that shall inhabit the inside of the firmament."

I saw the hand disappear and I heard the voice say, "Let the light for night that illuminates the way to be seen now come forth in its full glory. It shall become commonly known in the world of man to come as the Moon. She shall shine in her full glory then diminish to start her cycling course through the firmament's heavens just as each star shall travel their ordered, established courses." Suddenly, I saw the giant hand reappear. Between His pointer finger and thumb was a round brightly lit, shining object that was brighter than all the stars even before He placed it into the sky. When the hand placed the moon into the sky it quickly disappeared out of sight afterwards.

I heard the man's voice which I now know is the voice of Father God say to the moon, "You shall rule the evenings, the nights and you will be a sign for man and recognized as a schedule for seasons in all I have created. Ah, that's good. For the luminary light for the day it shall become the Sun. I shall place it into the day to light the way and the sun and moon shall be for days and

months, seasons and times, and signs and wonders. Yes, ah, it is good," I heard the Voice say then the scene changed.

I found myself standing in a solid white room. There before me on the wall was a great poster type picture, but it's blank. It's solid white and taped to the wall with white tape. There's nothing on it I can see at this time. As I looked around the room, I heard myself ask out loud, "What's going on?" The room itself is small and solid white. The walls are white, the ceiling, the floor, even the door was white. There aren't any windows or furnishings in the room either. Again the only other thing was the white blank poster tape to the wall. I glanced at the door once again and I realized there isn't even a door handle. "I suppose I won't be going anywhere," I said to myself as I refocused my gaze upon the totally white blank poster in front of me.

I looked at it again. "Hmm," I said thoughtfully to myself out loud. "Maybe I should see if there's something on the other side of the poster." I reached up and tried to gently peel the top right corner piece of tape from the wall. It stuck really, really good. With greater resolve and with much resistance from the white piece of tape it finally began coming loose from the wall. I slowly peeled it back in a way it would not damage or tear the blank, white poster. Next, I reached down to the right corner piece of white tape. It was harder to remove than the first one. The tape's stickiness tried to stick to my fingers, but I quickly removed it from my fingers and continued to apply myself to removing the tape that had been used to secure the white blank poster to the wall. Finally it came loose! While still attached to the wall by the remaining pieces of tape on the left side of the poster type blank picture, I folded it back so I could look at the inner side of it.

To my surprise instead of it being totally white it was brightly colored. It was in great contrast to the solid white of the other side. Displayed on it was a 12-month calendar. Each month was in a different pastel color. As I looked carefully I could see it was the Gregorian calendar names of the month that I use in America, but the beginning one was March and not January. Above each month's name was a corresponding number. This is what I saw. For the month of March it had the number one above it marking it as the first month of the year. The next month was April with the number two above it. Next was May with the number three, June with the number four, July with the number five above it. The month of August had the number 6, September the number seven, October the number 8. With November having the number 9, December the number 10 for the 10th month, January at the 11th and finally February having the number 12 marking it as the 12 month in this calendar displayed on this poster.

"Hmm," I said again out loud then continued, "I know in past times in history that March was the start of every new year and was directly related to the spring equinox. This puts September at the time I'm currently living in as the seventh month on my calendar. Strangely enough it's the seventh month on the religious Hebrew calendar too," I said to myself. The Hebrew calendar's 7th month is named Tishrei, I believe it is. In my studies in the calendar I recall the Gregorian calendar, the one used in America and across most of the world today used to start on March 1st," I said out loud. "While the Jewish New Year begins near the spring equinox. But Lord Jesus Christ if the moon was hung full at creation, what does this all mean? With all the calendar changes that have occurred, now there are times when the full moon arrives near or on the spring

equinox, but also does the black moon. Lord, what does all this mean?" I asked once again but no answer came.

As I examined the calendar more closely, I noticed the months of September and October were outlined in dark red, while the other months are outlined in black. As I began to examine these two months closer, I saw circled in a brighter red were the days of September 25 and 26. Written above them in small printed writing was the words full moon. I looked for the black moon that occurred in September and saw it was circled in blue on the days of September 11th to 12th. Above it were the words Black Moon. In addition there is a notation that says crescent Moon spotted after sunset. Then in bold white letters it says, Happy New Year!

"What!" I exclaimed, "oh, that's supposed to be for the Jewish New Year on the civil calendar. But if the full moon was the beginning of creation, wouldn't that mean the full moon would start each month? Hmm, what's going on here? Why am I seeing this?" I asked once again. "Lord Jesus Christ, please help me. Your Word says in Jeremiah 33:3, Call unto me, and I will answer thee, and show you great and mighty things thou knowest not. Please show me Your truth. I ask You in Your great Name Jesus Christ." This time I heard His swift reply audibly from the heavens.

"Daughter of Mine, you have sought My truth, and it has cost you much persecution and heartache, but I reward those who diligently seek Me in all things. I have shown you and told you to watch the moon for its within the quarter when these things begin. You have your quiet peaceful moments only until the 8th which is really the 7th for Me....not you, during the time when I walked the Earth as man yet as God too. I told you this in your final peace dream I gave you as I revealed much to you, as well as by other dreams, visions, and words. Now I'm showing you my calendar, the truth's hidden and distorted by the fallen angels and wicked men and women of Your world of what is about to occur. I have shown you the full truth, the full moon which starts the end to start the new day."

Suddenly, a man walked up beside me. He's dressed in decent everyday clothing that was loose fitting. I noticed he had piercing blue eyes and what caught my gaze most was he was carrying a gold trumpet in his hand. I was surprised because I didn't hear him enter nor do I know how he came into this little white room through a door without a door handle. He looked at me for a moment, then he turned and pointed to September 21st on the poster type calendar and said, "I'd ask Julian about that date to get the real one." "What!" I replied and was surprised but before I could ask a man anything else he disappeared. I let go of the white poster I had been holding in my hands all this time and to my surprise I now see on the once blank, white side words written in bold black letters. These words said, whitewashed truth.

I knew this meant the whitewash truth had been covering some truth that was hidden inside the calendars. Then I woke from the dream for the second time. The same dream both nights.

Whitewash Truth definition: A whitewash of the truth is a deliberate attempt to hide unpleasant facts, crimes, mistakes, or corruption to make a person, group, or situation look clean and innocent.

Verses:

Hosea 2:11; Amos 3:7; 5:21-24; 8:10; Habakkuk 2:2-3; Hebrews 11:6; John 8:32; 36; 14:6; Isaiah 55:8-11; Genesis 1:14-19; Psalms 8:3; 81:3; 89:37; 104:19; 136:8-9; Jeremiah 29:11-13; 33:3; Colossians 2:16-17; James 2:8-10; Matthew 7:7-8; Leviticus 23:23-32

Here is information I found relating to this dream in connection to the Julian calendar. I knew when the man said to ask Julian that he was referring to the Julian calendar.

Currently there is an 11-day difference between the religious Hebrew calendar and the Julian one. The Julian has more days to it so it's behind the Hebrew one. There is a 13-day difference between the Gregorian calendar and the Julian one in their dates.

The black moon was on September 11th through 12th from evening to evening or sundown to sundown as some say. The current Jewish calendar starts each month at a black moon after the first sighting of a crescent moon. This is currently the 7th month of Tishrei in the Hebrew religious calendar. This year the crescent moon was sighted on September 12th and the first day of the 7th month begins at sundown on the 12th..

The man pointed out September 21st. This is the 10th day of the 7th month of Tishrei. In the Hebrew calendar the 10th day of the 7th month is called the Day of Atonement and also Yom Kippur. Jesus Christ would have observed this also when He walked the Earth.

The man with the trumpet said to ask Julian for the real date for September 21st or for Yom Kippur. This is what I found in detail.

If the Julian calendar has a 11-day difference from the Hebrew religious one that moves the 10th day to October 1st because there's only 30 days in the month of September to Gregorian with all this is being converted on.

In the Julian calendar when you're counting the difference between it and the Gregorian for the religious Hebrew calendars, you begin your count starting with the day in your day count. We know this by examples given such as with Christmas Day December 25th and old Christmas also called Epiphany how the counting of days is done between these calendars.

When counting in the Gregorian calendar the 13-day difference from the Julian calendar, for the old Christmas (the original date of Christmas Day in the Julian calendar once used by the majority of people that celebrated Christmas Day) you begin with December 25th and add 13 days. This gives you January 6th which is the official day that old Christmas and Epiphany is celebrated on. Although, there are a few Orthodox Christians that choose to celebrate it on January the 7th.

So when you apply this counting method of the 11-day difference between the Hebrew religious calendar and the Julian when starting with September 21st 11 days lands on October 1st. The 11 day Julian calendar difference from the religious Hebrew calendar counting of days goes like this.

September 21=1, 22=2, 23=3, 24=4, 25=5, 26=6, 27=7, 28=8, 29=9, 30=10, October 1=11th day

We now have a new date for September 21st for Yom Kippur. But God usually brings a second witness when He moves His hand. So is there more? Oh yes, definitely there's more.

In 1582 when the Gregorian calendar was implemented to replace the Julian one that most of the world used at that time, pope Gregory the 13th, head of the Catholic Church during this time ordered 10 days to be completely dropped from the calendar as if they had never existed at all. This was ordered to be done and put into effect after October the 4th which was a Sunday. This meant now the next day after skipping 10 days on the calendar was officially Monday, October the 15th.

The 13th of October in 1582 was originally on a Tuesday and was also the black moon. Once the Gregorian calendar was implemented and the 10 days skipped and October 15th coming immediately after October the 4th, the October 15th's Thursday has now become a Monday. Now your Tuesday of October the 13th has become a Friday the 23rd after they dropped the 10 days in the calendar. This causes the black moon which was originally in the middle of the month on the 13th of October to now have a new date of October 23th. Again changing the actual date towards the end of the month and not the mid month.

What does this mean to us today? The days of the week are no longer on their original days since this time. This means that for example Saturday October 17th now on our change calendar has now become Wednesday. Sunday the 18th of October in 1582 has now become a Thursday after they dropped 10 days out of the calendar. So I asked some of you, what real Sabbath, the holy day are you keeping and observing by our calendars today? You don't have to answer that that's between you and the Lord Jesus Christ.

It's the 10 dropped days from the calendar we need to apply to our pointed-out date of September 21st. September 21st which is also Yom Kippur when you add the 10 dropped dates again and add up to October 1st in our current calendar for September 21st and Yom Kippur the 10th day in the Hebrew religious calendar.

When you are counting the days in the Hebrew calendar you will go from evening to evening. This is how the 21st becomes October 1st when you add the 10 days starting with the evening of the 21st of September.

In addition, by the displayed calendar on the wall the 7th month was September and since the new date for September 21st is now October 1st, for me, for the displayed Gregorian calendar we have entered the 8th month. It's now the 8th month for me, but for the Jewish people, even Jesus Christ when He walked the earth, it is still the 7th month. So the 7th in this situation is really the 8th for me. This is my current understanding of this but there could be more.

Why is the Julian calendar being brought in today since it's no longer used. As I have repeatedly said through my lovely Jesus Christ when He walked here He used and observed the Hebrew religious calendar, but because the Jewish people had dealings with the Romans who were ruling

over the people of this time they had to use their Julian calendar in their dealings with them. In all these things Jesus Christ has said He was using these calendars.

Why has He focused so much on all this concerning the calendars, the dates and such like? Because he deals in truth, not deception. So therefore, He keeps pointing out the deceptions of the calendars so we don't have to be deceived. We now know our Sabbath days and days of worship are no longer on their proper days since it changed over in the Julian calendar. This affects the times and days of worship of our God in heaven.

In addition with the dropping of the 10 days it caused the time of the black moon that was coming in the middle of the month on October 13th to now be pushed to the date of October 23th which is near the end of the month and close to where the original day of the full moon would have arrived which would have been on October 27th. Instead the full moon is on November 7th which is it's new date

The moving of the dates of the moons affects the whole world but specially the celebrating of feast that honors Father God and setting aside the Sabbath day and days of worship. This was deliberately done by the Roman Catholic Church and was implied it was so they could align Easter through so-called lunar/moon adjustments in the new calendar. As I was praying about this and asking Father God about this and why it was allowed, for my response I was given these verses.

Jeremiah 3:8 And I saw, when for all the causes whereby backsliding Israel committed adultery I had put her away, and given her a bill of divorce; yet her treacherous sister Judah feared not, but went and played the harlot also.

Hosea 2:11 I will also cause all her mirth to cease, her feast days, her new moons, and her sabbaths, and all her solemn feasts.

Amos 5:22-24

21 I hate, I despise your feast days, and I will not smell in your solemn assemblies.

22 Though ye offer me burnt offerings and your meat offerings, I will not accept them: neither will I regard the peace offerings of your fat beasts.

23 Take thou away from me the noise of thy songs; for I will not hear the melody of thy viols.

24 But let judgment run down as waters, and righteousness as a mighty stream.
