

## War in America 12-12-19@2:34 AM Journal Entry

“War is imminent Child, and even now is upon your once great nation. These threats spoken against your nation are not always full of empty promises. WAR IS COMING!!! It’s even at the door. Get ready Child, for your world as you know it is all about to change, because as war comes upon you so does it usher in with it the many horrors, the atrocities of heartache and suffering. Get ready Child, for I have only just begun to show you how I shall supply all your needs. For as war progresses, your many luxuries and necessities, the many supplies needed by most shall disappear and be difficult if not impossible to obtain.”

“What exactly do I need to do to prepare for this war?” “Pray, Child, always pray. Pray first and foremost then read Child, study My Word and then believe. Start believing all things are possible with Me, through Me and your every need and those that you love will be supplied for.” “And when, Jesus? How soon?” “Soon... Sooner than you think Child and not many people are truly prepared. It’s a start Child, a prefix of the beginning of the end. Pray Child, get ready. Think it not strange that I have for months of your time been teaching you to depend on Me for all your needs and not just some. Because when in war a nation tends to forget the needs of its own people. WAR IS COMING Child, it’s even upon you. Get ready Child, I say again, for life as you know it in your country will be changed.”
