

The Mark & Pioneer Days for the World 10-21-26@8:58 AM Shared 10-22-26

A returning of pioneer days, not just for some, but for the whole world now Daughter as more of My children unite and pray for the safety of those who shall be left behind. Like your world's Flintstone's cartoons created because of glimpses seen of what's coming when they were once allowed...hear Me Daughter, 'ONCE' allowed to see glimpses and pictures of moments of time in the future of the Earth's timeline. But it's not prehistoric days but pioneer days with some modern high technology still in use that's coming.

Hear Me, Daughter, hear Me, computers will still be in use for some who have electrical power or the ability to recharge a battery for the laptop type models. Cell phones shall be the most common and this holy judgment shall cover most of the earth after the great earthquake of Revelation 6 as written in the Word of God, the Holy Bible with the exception of areas needed for war still on the earth and for antichrist's kingdom he shall name great Babylon. This will be allowed for him to maintain a more modern city of electrical power and other locations of headquarters for his 10 kings and his beast system readers for his mark.

This will be part of his allure that draws people to him, because technology and science are gods to so many already who have forsaken the truth of Father God and My existence. In a world of chaotic hardship, war, and harsh cruelty that has come, many will come flocking to these types of places that these many will consider to be like oasis' in the desert. At first it will be allowed for people to come freely because they will be needed and antichrist and his forces shall go through and cull those with needed skills from the rest and will offer them safety for their skills and services.

Once the mark has been offered to the world, a person will not be able to enter or leave these types of cities and locations without having the mark of the beast. Trade cities and bazaars shall open inside the larger ones, but to be able to purchase anything or to sell you must have antichrist's mark to enter the cities to buy anything. These are some of the cities and locations I have shown you in the dreams Father has had Me give to you Daughter of before the mark was fully implemented for the entrances and exits of such places, and some after.

For antichrist main areas much of the advanced technology you have seen is already above the Earth in secure locations and facilities that shall hold the more modern technology. This too shall be allowed for his reign as it will align with the fake delusion of superior aliens from outer space having come to the world. The fallen ones with their natural strength and that of the nephilim now at this time walking freely on the Earth's top surface unchallenged in a devastated world in ruins, they shall help build these cities for antichrist's reign without the need of diesel equipment or electrical power.

This is also how they shall aid in deceiving the people that they, the fallen ones, nephilim, and demons disguised as aliens from another world are good and here to help the Earth's inhabitants. Many will embrace them as their gods, gods they can physically see. What your world will be like, Daughter, is modern technological advanced cities in the regions where antichrist rules, from which will be more than one location which will draw people to him, but only in the

amount of locations I determined by weighing all...for him to accomplish all that is written in the Scripture of Truth. For what is written, what is spoken, what is commanded, shall be.

The rest of the world will have some technology, but most will be reverted to a state like that of the pioneer days where you have to work to survive. No longer shall you have microwave meals or be able to hop into a vehicle to make a quick drive to the store to buy something... for most. Most will not be able to turn on a switch and have cool air to make them comfortable in the heat or turn on the heater to warm the room. I'm warning all who will listen out of My love for mankind. For most, as time progresses you will have to search for clean, pure drinking water and refrigerators, freezers, and electric powered stoves will be a distant memory for most outside the walls of antichrist's modern cities to come, and even inside the walls for some. But even in the cities food will be scarce and rationed as the tribulation continues on.

So back to the pioneer days you go world, during tribulation times, this foretold period of wrath and judgment upon the world for all its inhabitants. But the greatest reason for this is for My children, because surveillance of your every movement of those left behind will no longer be possible worldwide. Otherwise, you would be hunted and martyred in the first 6 months of this tribulation period that will have come to your world. When all these things begin happening and the tribulation which occurs at the time of My Great Day of Wrath, people will begin to band together. Some for protection, some out of desperation. These cities will over time fall under the control of antichrist which are not designated safe areas for My children. They will either be some form of militarized government, law enforcement, or his people being the controlling factions in these cities. So know this now.... should you find yourself left behind.
