At 8:14 AM today, 3-13-26, I sent out the first post to telegram with this information.

Second Word Received 3-13-26@2:22 PM

Wichita, Wichita, Wichita, you fall!
I see what you do in the shadows to the children.
Wichita, Wichita, Wichita, you fall!

Daughter, do not grieve over destruction's path. These places hold great evil, strongholds of rituals, murders and destruction to the innocent and children in these places I am hitting in devastating fury. Most of these body counts are... the evil and unsavable. Those are the bloodline of the fallen ones. Yes, there are some of Mine who are falling, and yes, there are some who have not accepted Me that is meeting My slayer, the destroyer by Justice's command.

These things must be, for the evil runs deep. They must be cleared away for those of Mine needing safe places to dwell, to hide in evil Babylon's walls. For many who smugly declare their hearts are ready for My return are still wearing dirty bridal garments and I can't see it because of their compromising with the world.

Wichita falls by nature's fury as I warned you this morning and had you to share.

Think it not strange how the elites scramble and fear because they no longer control the weather anymore, nor did they really ever did. Allowances were made to give them a sense of false security of control and power where none really existed. I control the weather of this Earth and all its elements and now they know that I am God and not the fallen ones they would give their lives for.
