

Bank Collapses, Fuel & Gas Rations to Come for USA & Other Nations 3-28-26@3:12 PM

"Lord Jesus Christ my Love I'm here. I heard You call out to me." "I did My Daughter, I would speak with you." "I'm here my Lord Jesus Christ."

With all that is coming to pass in the fulfilling of My words given to you and other of My true children, the dividing line once drawn is now clearly seen. As with The magicians of Pharaoh's days they were only allowed to proceed forward in their displays of deception for a short allotted time. So, it is now with those false prophets who claim to be Mine. We have reached the point of the frogs, daughter, like in the plagues of Egypt sent to Pharaoh and his people during Moses' day. What does this mean? Though the fake false prophets will keep spewing words given in My Name Jesus, they will not be able to keep up with the true ones because of how fast I answer that which I have spoken through them in truth and in love.

My children like you daughter have travailed against the accusations of so many, while also carrying the heaviness of all they must deliver, for they carry the burden of the Lord, of My Father and Me. You know this well having lived and experienced it yourself.

Hear Me Daughter, no matter what news you hear, no matter how sick a child, a friend, a family is supposed to be, you hold your ground and remain where You are! For these things are not in reality how they are being presented. Manipulation of the emotions is their plan. Stand your ground in Me and leave everything else in My hands. I've got this daughter and I've got you!

Now the false are being exposed to those of Mine earnestly seeking the truth, My truth in every area of their lives and I am answering them. So brace yourselves My children because not all will receive what they wanted to hear or see, but it will be the pure truth.

Now I give warning to you again daughter and this time you are to share this. Look for rationing of gas to come forth shortly in your once great nation Babylon-America. This will affect all such type related petroleum-based fuels. This warning is not for your nation alone daughter, but shall begin occurring in many others also.

In addition, look for food rations to begin in America-Babylon and other locations. As time progresses food will begin being confiscated especially from those who grow their own gardens and preserve in abundance and store for later use. As food availability declines these things shall be... including those who are hungry, stealing from those who produce and maintain their own food while they are still able.

This is where the distinction of who are Mine, and who are not will be seen. No food can be grown well or found in abundance except in locations belonging to those who are Mine as I bless their hands and multiply their food and drink when they give thanks to My Father in My Name and the two fish and five loaves feed all I need them to.

Daughter hear Me well.....Collapsing the banks. Each child needs to seek Me on how to proceed for each location or city, each state and country are different. These are worldwide occurrences

although Babylon-America shall see and suffer the most. I give warning to My people now. Seek Me on how to proceed.

Now the world sees what I have had you warn about for years, daughter. Iran and even Iraq, your nation and world shall see are not weak in power and military strength, because for years in their underground basis, complexes, laboratories, and testing sites by their agreements with Russia the bear and the king of the East's land of China there are far more advanced in their weaponry and their strategies of war. Just like Kim Jong-Un and his nation of North Korea.

Woe has come to your world daughter, as your world begins passing through the threshold from the Age of Grace, to Day of Wrath. Hope it's not lost for I can still be found even during the darkest time of your world's history since its creation by My Father and Me.

As far as the price of food for your nation's people, daughter, tell them, 'You haven't seen nothing yet.' Judgment still falls against you Babylon-America, mother of all harlots. This will be swiftly followed by famine. But first see New York city's Manhattan fall.

Now... play ball.

Note: After the plagues of frogs, Pharaoh's magicians were no longer able to perform and copy the miracles that God was doing through Moses and Aaron. This is the moment in time when God shut them down and showed them He was God. This is evident because when Moses called for the plague of lice, the magicians could not copy this miracle .
