

The 7 Black Cubes of Time Dream 1-14-26 to 1-19-26

"Jesus Christ, I love You. I've come to finish writing out the dream I keep having over and over again for the last several nights. You're now telling me I'm to share it after I've already tried and discerned it's from You. Sweet Holy Ghost Spirit please help me to not write one word that's not from You, Father God or my lovely Jesus Christ." "I won't Daughter of Zion."

It began when I found myself standing outside looking up into a blue sky with a few scattered white clouds. There before me was a large black cube. It's solid black and seamless and is suspended in the air being held by nothing. I could tell that it had a smooth finish. As I continued to look intently at it, I heard this word spoken, 'Obsidian.' I understood this to mean that the cube, at least in part, is made out of obsidian. As I continued to look at the black cube, I heard these words spoken in an audible voice, "Flexible graphene. The outside of the cube is made out of obsidian and flexible graphene." I looked in awe and wonder at the strange sight of the black cube suspended in the air when suddenly more understanding dawned in my memory. This one looks exactly like the one in my possession called, 'the black cube of advancement of time,' given to me by Father God and my lovely Jesus Christ as a keeper of time. "What does it mean?" I asked out loud as I looked around but saw no one. "Why am I seeing this cube in the sky? I know there's more than one, but I thought those were in the possession of the kingdom of darkness."

I heard a voice behind me say, "They are, all but the one in your possession." I whirled around quickly to see who had spoken to me. Immediately my eyes fell upon a figure of a man sitting on a lone park bench. He looks to be a good distance away and he is in the shadows of the trees above him, but his voice carries strong and clear over the distance. I pointed to the large black cube still suspended in the air as I said to the man that spoke to me, "You can see that! You can see that big black cube suspended in the air?" Then I paused and hesitated. How does this man know who I am, and that I possess one of the black cubes? I turned and looked at him cautiously. The man spoke to me again and said, "Daughter of Zion, of Faith, of Mercy and of Heaven's Court, all of Heaven, and all of hell know you have the black cube of advancement of time in your possession, and that it was given to you by Jesus Christ, the Holy Risen Lamb of God, the King of kings." I knew by this man's response, he's not from around here. Actually, he's from Heaven. I took one more look at the black cube in the sky and began walking toward the man on the lone park bench.

As I came closer to him, though dressed as an ordinary man, I could still see the faint glow that surrounded him. He is a holy Angel of God. When I drew closer, I saw a pair of intelligent, piercing green eyes looking at me intently, yet with kindness. It is the Holy Archangel Michael. "Michael," I asked, "why are you here?" "Have a seat," he replied

quickly. "I have been sent to talk with you about the 7 black cubes." "Seven, there are seven of these black cubes!" I said in surprise as I quickly sat down on the park bench. "Yes, Daughter of Zion, there are seven black cubes in total. Six of these are in the possession of the kingdom of darkness, but at different locations. Each one is connected to time." "To time," I said in surprise! "Are they all made out of the same obsidian and flexible graphene," I asked quickly? "They are," Michael replied, "with each cube being the same, yet different in its facets concerning time." "How so," I asked him with great interest?

"The outside of each black cube looks identical, but accessing the contents inside is different for each one. For instance, the one you possess, though seamless on its outside like the others, you have various pressure points that you know to press in a certain pattern that allows the cube to open and reveal to you the information inside," the Holy Angel said. He looked up toward the black cube in the air then said. "All the information contained inside of each black cube consists of knowledge from Heaven that lucifer and the other angels that fell had obtained and have misused. It is what we in Heaven call, 'the forbidden knowledge.' This is knowledge that man was never meant to know, or was to learn at a slow pace so that it would not cause man to fall or go astray." He turned his gaze toward me and then said with a smile, "What lucifer and the others didn't realize was, they do not have all the information to utilize the full power of the knowledge that they have protected inside each of the black cubes. Nor do they realize fully even now, there are many more mysteries in Heaven they were never allowed to know, because the Great God of Heaven, Majestic and True knows all things, and knew in advance of their evil doings still to come." I had to smile as I replied, "You're right Michael, Father God is always many steps ahead of the kingdom of darkness in all things." He nodded his head briefly in agreement then continued to speak.

"The black cube of advancement of time in your possession was once in the hands of the kingdom of darkness. You know this already, as you were taken with us when we retrieved it from the sunken city of Atlantis. This is when it was given to you and you were made aware that Jesus Christ, the Risen Lamb of God had created you and called you to be a keeper of time. This in part is necessary for the witnesses of end days," he finished saying. "Yes," I replied, "my lovely Jesus Christ has spoken to me about it already. May I ask what the other six black cubes do? Michael, how are they related to time?" "These are good questions," he said quickly. He lifted up his hand and pointed to the big black cube in the sky. Suddenly, I watched as another one appeared to its right, then another, and another until there were a total of six black cubes in the sky. They all looked identical. They were all black, seamless and with a smooth finish.

"Daughter of Zion, I am to give you the names of each cube, and a brief breakdown of how they relate to time. Remember, when dealing with space and time, what is really happening is mankind and the fallen ones are accessing the Earth's timeline that's inside

the spiritual barrier wall now encased with ice of the Antarctic when it comes to any type of time manipulation. This includes even when they're trying to open a portal way or door which appears to be pointed toward the heavens. All is interconnected when it comes to time and space. But all that is time related itself, is mapped out in Earth's timeline in advance with allowances for mankind's free will of choice by the Almighty God of Heaven's commands." "I know this Michael," I said with understanding in my voice, "because Holy Ghost Spirit has been teaching me." "Yes Daughter of Zion, all of Heaven knows this," he replied.

"I am now to give you a greater understanding of Earth's timeline itself. As you have learned already, time travels forward, but even in the creation of time you have learned of the forward and reverse arrows of time that operate in time and space itself. For each person, each inhabitant inside this firmament, that have become participants of life on Earth which now includes the fallen ones, nephilim and demons, there are a set lot of days for the Earth. With every action, there's a reaction, and in every action in Earth's timeline there is an allowance made for changes that occur. But in all this these changes will still move forward to the direction that the Almighty God of Heaven has created them to go. What this means is, for example Daughter of Zion, every decision you make moves you forward on a set path in Earth's timeline. Like branches of a tree, each decision you make determines which branch of the timeline laid before you, you will walk in. It is not an alternate reality. It is not another dimension. It is the adjustment in Earth's timeline made by the God of Heaven, Mighty and True to allow for men to have free will."

"If you would look down upon the Earth's timeline you would see the main flow of time going forward, always forward. Then inside this forward flow of time and space which is the main body, you would also see for each person, each inhabitant what looks like branches of avenues interconnected that can be chosen to be taken depending on what choice a person makes. This decision does not alter time, nor does it alter reality, because every decision, every choice made is already mapped out and will still in the end lead each on the course and path that the Faithful, Majestic God of Heaven has commanded this world to go. It can cause changes in the people, places, and circumstances involved in the path now being taken by the decision made, but that is it. Meaning again, these actions do not manipulate time itself, nor time and space. Lucifer and his kingdom have been passionately pursuing the manipulation of time in hopes they can veer the course laid out by Father God of the Earth's created timeline, into one of their own choosing. That will never happen," Michael the Archangel said in a voice of calm, firm authority. "Wow," was all I could think to say at this time, as the Holy Angel of God continued to speak.

"It has been a goal of the kingdom of darkness to change the outcome of the world entering into the end time days in any way they can. After all, when this world is purged by fire, they will have nowhere to go but the lake of fire reserved for them. Upon accessing the forbidden knowledge of Heaven and adding it with their technology they

were able to begin to gather glimpses into the future and the past to see. This is technology they willingly shared with mankind, but only in exchange for their utmost loyalty. Parts of the forbidden knowledge and technology were shared with those loyal to their kingdom to try to set man on a different course in the Earth's timeline than what the True and Just God and Creator had commanded. In all their technology, in all their experiments, in all their portal openings and glitches into the Earth's timeline, with Heaven's forbidden technology they have still not been able to prevent time from going forward in the main direction as Heaven has declared it will be. These manipulations have been done by utilizing the knowledge accompanied by their technology that is now hidden inside of the black cubes. The exterior was created by lucifer to keep anybody else from accessing it. Again I say, they have never been able to access the full power of the information and knowledge that they have misused and abused that they took from Heaven." "What exactly does that mean Michael,? How have they been prevented from using the knowledge from having fully," I asked him in great interest?

He smiled and said, "For example Daughter of Zion, the cube that you have in your possession, lucifer and his kingdom once possessed. All they were able to obtain from the knowledge of Heaven was how to acquire glimpses and looks into the future in Earth's timeline. They were never able to utilize it to its full potential and actually cause an advancement in time. Nor could they advance forward in space and time more than what the All-Powerful God of Heaven, the Lord of all spirits, allowed them to travel. Daughter of Zion, nor will they ever. Because now the black cube of advancement of time can only be opened by you. In their desperation, they have come to think if they can kill you, then the cube will be free for them to access should they acquire it again. Foolish they are, for once again they have failed in their attempts, because it is not your time to die Daughter of Zion. That time is to come later as written in Scripture of Truth with the other witness."

He paused speaking and we both were silent for a moment as we looked at the black cubes still suspended in the sky. My mind was racing with all that I had just learned. Finally I spoke up and asked, "What are the other names of the six remaining black cubes? Do they have individual names like the one in my possession," I asked Michael the Archangel? "Yes they do," he replied. "May I know their names? Did Jesus Christ my love say you could tell me their names," I asked him again? "He did," the Holy Angel replied. "One of the black cubes is named the black cube of reversal of time. This cube has the forbidden knowledge revealing how to gain access to the Earth's past in its timeline. In time's past it was originally accessed when the kingdom of darkness would fracture people's minds, their soul's minds through trauma, through agreements and such like. This is also one of the many ways they were able to access the future for glimpses before their technology was in full place. When a man, a woman or child's mind is fractured by fear, trauma, through agreements made and such like to the kingdom of darkness, they become caged souls. Just the part that the kingdom of darkness has legal access to. Through these caged souls, their minds, when inserted into the Earth's timeline

the kingdom of darkness was able to get glimpses of the past or future depending on what part of the timeline they've been inserted to. Now for the person that was looking into the timeline of Earth, many of them were given delusions and deceptions, such as they're seeing another dimension, another reality, another lifetime whether it was a past or future one to come. One of their favorite delusions has been to make the people believe they have been abducted by aliens. The truth of the matter is there are many times people have been abducted by the fallen ones to experiment on. This would be, and still is part of the covenant agreement between the governments and leaders with them for them to be given a set number of their citizens in exchange for technology and favor. These are common practices of the kingdom of darkness even today in this time era of man. When the kingdom of darkness was finally able, for their technology to be infused with the forbidden knowledge, that's when technology such as the looking glass began appearing in the secret places and governments in the world of man." I know some of this," I said "because Jesus Christ my love has spoken to me much about this already."

The Holy Angel Michael gave me a brief smile of acknowledgment before continuing to speak. "Not every black cube is opened in the same fashion like the black cube of insight. The forbidden knowledge of Heaven in this cube allows, when utilized, for the users to see glimpses of possible outcomes of timelines that choices made can bring into existence. This particular one is opened by harmonics. Also by sounds and frequencies accompanied by vibrations and light manipulation that when held out, those around it can catch glimpses inside their own life related branches of Earth's timeline in the future to come. Only brief moments will be seen, and only as possibilities, but with good probability what they see shall come to pass. That is unless Jesus the Christ, Holy Judge of the Earth decides to step in and create a new truth which would change the outcome of all that was seen." Then he asked, "Daughter of Zion, have you ever wondered how many of the ungodly shows and books that are broadcasted in your world are able to have so many predictions seem to come true, yet again many do not?" "I have Michael," I answered. "I thought many times it would have to be the demon spirit of divination or another. But even in this I realized if they're telling someone about something to happen in the future, it's either being pre-arranged by the kingdom of darkness to happen so people will believe their deception, or somehow they've looked into the Earth's timeline, as in through some type of looking glass technology. I have heard about many books and shows like the simpsons and others that make predictions years ahead that come to pass. Am I correct Michael," I ask?

"Yes, Daughter of Zion," he replied, "you are, because the kingdom of darkness does not possess the power of knowing the future. All they've been allowed to do is gather glimpses and then try to piece them together. Many times the Magnificent, Holy God of Heaven would allow them to proceed, because none of His children would rise up to war against these evil deeds. At times the Holy Lamb and Lion of Judah would step in and intercede on behalf of His children who weren't aware of what was occurring and if His

petition was granted, He would create a different outcome, a new truth that would better His children. In addition, lucifer and his kingdom are a kingdom of lies, not truth. Therefore it is not permitted for them to always be presented as if they're operating in the truth when the reality it's delusions and deception," he finished saying. "That's good to know," I said with a smile.

Michael the Archangel returned my smile, then said, "Another of these black cubes is the black cube of knowledge of quantum's of time interaction. I know that the name quantum is familiar to you, Daughter of Zion. This cube's forbidden knowledge of Heaven contains in part, but not fully, the building blocks of time and space that the kingdom of darkness is trying to utilize and harness its power." "Wouldn't that be like trying to harness the power of Father God? "I asked him quickly. He answered me with a question of his own. "Is this not what lucifer has always desired to be, God Himself? He will fail. He will always fail. His kingdom will fail, for the God of Heaven, Creator of All, Faithful and True is also All-Powerful. He is Omnipotent, Omnipresent, He is the Supreme of All, and He is love. He will lose. Now concerning these cubes of time, please understand Daughter of Zion," he said, "some of their forbidden knowledge of Heaven have been combined at times to allow advancement in your world's physics, science, and such things like the portal-doorway-archway technology. All provided to them by the fallen ones through covenant loyalties, agreements and servitude to them. In reference to portals, archways and doorways technology, Heaven's forbidden knowledge is found in the black cube of gateway openings of time and space. This knowledge has been infused into the actual technology and science, but again it's not the full knowledge of Heaven in its entirety either. The six black cubes in their possession are covered in multiple curses, spells of witchcraft, charms and such like to prevent all not authorized from accessing them. Such as the one that was removed from the position in the hidden city of Atlantis, they were waiting to reclaim once the city resurfaced. This is the black cube of advancement of time, in your care given to you after all demons and their activities were removed on Heaven's orders." "I still have it with me," I said quietly. "Yes, Daughter of Zion, I know," he replied.

"What about the last two cubes?" I asked Michael as once again I glanced at the large black cubes lined up in the sky, then back toward him. He looked at me intently and then said, "One of the remaining two is the black cube of the knowledge of Earth's timeline which contains inside of it Heaven's knowledge of how the Earth's timeline operates and its structural makeup, but again it's only a partial amount of the information needed to master it, for the God of all Heaven is wise in all things and allowed only what was needed for the kingdom of darkness to be able to advance forward for the end of days to be fulfilled," he said with the smile and then continued. "The last one is called the black cube of time and space interference. The forbidden knowledge of Heaven stored inside it has allowed the kingdom of darkness the understanding of how to, when combining it with their science and technology, to cause time looping and space duplicating. You have

been given dreams on this and the Holy Lamb of God has spoken to you about it as well. It has been recorded in heaven that just recently you have learned about this technology being in the hands of your own President Trump," he said with a voice of knowing. I looked at him and said intently, "Yes Michael I have. You said that some of this knowledge of Heaven found in these black cubes have been used together. What happens if they have all seven of the black cubes working together at one time? What would they be able to accomplish and how would it affect time in our created Earth, our firmament?" "Daughter of Zion," the Holy Angel said with a very serious look upon his face, "the kingdom of darkness would have dominance inside the created firmament over time and space. With the information they have already obtained and with the joining of Heaven's forbidden knowledge of all seven cubes, if it were possible, they would push the very fibers of time and space beyond the created capabilities, even if it meant the destruction of mankind. All to try to prove that they are greater than the almighty God of Heaven. Already the destructive ways and lack of concern for the Earth and all of creation, includes its inhabitants in their obsession to open doorways and portals just to try to manipulate time and change the course of the written timeline as foretold in the Scripture of Truth."

All I could say again was, "Wow!" We sat in silence a little longer and I could tell of the coming lateness of the hour by the position of the sun in the sky, midday had already passed. I sat in deep thought, the Holy Angel of God leaving me undisturbed as if understanding my need to process all I had heard, until finally I spoke again. "Michael, most people don't realize how truly evil the kingdom of darkness is. We're told all of our life they're evil. They've come to kill, steal, and destroy us, but very few have a good grasp of what that really means. The enemy's hatred for us is beyond bitter and obsessive and so is their obsession with changing and manipulating the Earth's timeline, being space and time itself, so that this Earth will not be purged by fire. Since being cast out of heaven, the Earth is their home. Although for the majority of them, their living has now been behind the spiritual barrier wall. Now they're about to finally be released into the physical realm when the three days of darkness occurs. They will be free without restraint. I can see why they're obsessed with changing the outcome of the end time days, especially the battle of Armageddon. They think that if they can change the course of the Earth's timeline and cause a different ending on the final battle of Armageddon, or even before, they can forever reign as rulers of this world and it won't be destroyed by fire. They're obsessed with changing time and space in this world by any form of deception, lies, destruction and manipulation they can. This is such a malignant, evil obsession that they have become severely deceived that they can do this. Why? Because the truth hurts. It's unbearable for them because they chose to sin and it was in Heaven where time as we know it does not exist. They were in Heaven. They knew Father God was Just, Fair, but also All-Knowing. By their own actions all they have to look forward to is a place of forever torment in the Lake of Fire. So, they are trying to out best Father God and Jesus Christ, and because of their pride filled egos they believe their own lies they can do this.

But there's more to it. A whole lot more because it's now also an act of obsessive self-preservation to the point of killing and destroying all that gets in their way. Which unfortunately means mankind. Do I have a clear understanding of this and why they're trying to manipulate time so much through these black cubes? Also, why, so many people worship the power found inside of the cubes of time?" I asked the Holy Angel of God. He looked at me grimly and said, "You do, Daughter of Zion, you do." With his final words I find myself waking up each night I've been given this dream.
