

The Black Eraser & the devil's CPUs Dream 3-4-26@ 2:22 AM; 3:33 AM; & 5:07 AM
Shared 3-5-26

I have dreamed again my lovely Jesus Christ. I have prayed, tried and discerned this according to Your Holy Word of God and it's from You. I'm not the only one that has discerned this dream. This is a 2 Corinthians 13:1 dream and it is established having been given to me by You more than once. It was almost the same dream each time with the ending being a little different. Oh dear friend Sweet Holy Ghost Spirit, don't let me write one word that's not from my lovely Jesus Christ." "I won't Daughter of Zion, please proceed."

The dream began when I found myself looking down at my hands in which I am holding a black chalkboard eraser. It looked like the type found in the school days when the teachers had used blackboards to help teach. I looked it over carefully and it simply appears to be a blackboard eraser, yet I know it's something more for it to be in my hands. I looked around and saw I was inside a very large computer complex area. It's vast and it's huge. There's data banks and computers everywhere. When I looked around I saw the words, 'Computer hub of the AI, one of many,' form in bright blue letters over an area of many computers all with flickering lights as if they were all operational and/or communicating with one another constantly.

I looked back down at the eraser still in my hand and I found myself smiling a huge smile of satisfaction. I heard a voice behind me ask softly, "Daughter of Zion are you ready?" "Yes, oh yes, definitely," I replied in a confident voice as I turned around to face the person who had spoken to me. I was not surprised to see the Holy Angel Seth once again before me. He's dressed like a modern-day man in blue jeans and a tan t-shirt. He has black tennis shoes on his feet and his long dark hair he has tied back like a lot of men wear their hair today. He was dressed to blend in with everyday life. Immediately I realized then there's a possibility we may be able to be seen. "If you're ready Daughter of Zion, we will begin," he said quickly. "Oh yes," I replied enthusiastically. "Let's do this," I said and then finished by saying, "for the glory of Father God and my lovely Jesus Christ." Seth the Angel of God smiled and said, "Yes indeed."

I looked around once again at the huge room that looked like it could be three central command center posts in one room. "Which one?" I asked quickly. He pointed to what looked like a command computer with flashing lights that never seemed to go off for any length of time. "This one Daughter of Zion, and of Heaven's Courts. Most people cannot enter the 3D computer world created by the fallen one's technology except through their minds, their eyes, and their helmet type goggles unless they are astral traveling into it with their demon counterparts and guides leading them," he said and then continued. "This is part of the beast system. They have created a false reality world so that while people enter to be entertained through their eyes and mind with their five senses being manipulated to respond by the enemy, access is granted by many unknowingly by agreement for demons to enter their lives. You though, Daughter of Zion," the Angel Seth said quickly, "will not enter into the false reality deceptive imagery. We are entering the programming itself. This is only possible for you to do as a child of the Risen Lamb, Yeshua, Jesus Christ and as one who holds and now understands the knowledge of the Black Cube of Time and Advancement. Shall we proceed?" He asked me quickly.

I smiled again and raised the black eraser up high for him to see and said, "I'm ready, let's do this!" He nodded his head then said, "Daughter of Zion, the Kingdom keys." "Oh, yes," I replied and reached into the right pocket of my jeans. I pulled a tiny set of keys out that once I held them up they grew into a very large, yet lightweight ring full of keys. From the look of them, there was a key of every shape, size, and kind in all of Father God's existence. "I've got them too," I said triumphantly. He smiled a small smile then said, "Let's proceed." He walked over to the large computer he pointed out earlier motioning me to follow him. Then he said, "I will open the portal of entry. At this time you will need to pray the prayer of knowledge in the Holy Lamb of God's Name concerning the Black Cube of Time and Advancement. Pray it within yourself for I am not to hear, for I am not one of the official Keepers of Time of Heaven's Courts." "Oh," I said momentarily, surprised then asked, "can't you understand my thoughts and thinking?" As I remembered past times how the Holy Angels of God I had encountered had answered my thoughts and questions without me speaking them out loud.

"Daughter of Zion, of Heaven's Courts," Seth, the Holy Angel of God replied, "normally I could but your mind has been shielded from me because I am not one of the Keepers of Time so I will not be able to hear you when you pray this prayer of faith and knowledge in the power of Jesus Christ, Yeshua Ha' Mashiach, Son of the Most High God's Name." "I understand," I replied. "Good," the Holy Angel responded to me. "When I open the portal and you do your part, then through the power of the Lamb's Name I can bring you through the portal. While inside, time in your world will stop advancing. To the outside world in the physical realm it will only be a few minutes of time mostly undetectable, but in the spirit realm, once we have returned you out of the 3D created world of false reality, time will resume and all of hell will take notice. As eternal beings, lucifer's kingdom will immediately begin seeking to find out who interfered with time. They will not be happy to find out it was you Daughter of Heaven, of Zion. Their hatred for you has grown exponentially in this last year of Earth's time," he said with a serious face.

"So I guess that means Father God and Jesus Christ are going to let lu lu and his kingdom know," I said quickly, but in seriousness I continued and said. "Seth, they hated my lovely Jesus Christ even more, so much they crucified Him, but only because He allowed them to do so. That puts me in good company. All in all, I'm good with the knowledge they hate me, because Jesus Christ loves me so much He died for me. You can't get any better than that," I said finally with a small smile returning to my face. Then I held up my hand with the black eraser now in my left and the full ring of keys in my right one and said, "Let's get started! I'm really looking forward to this trip Seth," I said eagerly. "So am I, Daughter of Heaven's Court and of Zion," he replied with a smile of his own. The Holy Angel Seth moved his hand in a circular pattern in front of the large computer and I saw an opening begin appearing.

He looked at me and said, "Know this Daughter of Zion, once you entered this portal and utilize the knowledge of the Black Cube of Time and Advancement in the Holy Lamb of God's holy Name, this portal entry way, though undetectable by the kingdom of darkness, shall grant you access through Heaven's orders to come and go freely as needed, in and out of any computer type system including the internet. You will be undetected and always protected by the Blood of the Lamb and those of the Heavenly Host assigned to protect you as holy witness of God. What men call impossible is not with the Almighty God of Heaven who created the very fabric of time, the reality and space for your world. The importance of this mission in part is as time progresses,

some minds of the people will become trapped, lost in the false reality of what your world calls the 3D world. Some of these are those still called to hear the full gospel, the saving gift of salvation of Yeshua, Jesus the Christ. As a Timekeeper you are able to reach these souls so they have a chance to choose or reject Him as their Lord and Savior. But until then," the Angel said with a smile, "we have a mission to complete." "Yes we do Seth," I replied but then asked, "are we going alone?" I heard the Angel of God reply in a non-offended voice, saying these words. "Daughter of Zion, I assure you I am well capable of taking care of you or Yeshua Ha' Maschiach, the Lamb of God, Jesus Christ, would not have entrusted me with your care." "Oh Seth, you're right," I said quickly, "I didn't think of that. I'm sorry."

He nodded his head then pointed to the still open stable portal. "Daughter of Heaven's Court, if you would do your part we can then proceed." "Yes, right away," I replied. Then I bowed my head as I prayed in Jesus Christ's Name all I've been taught by Sweet Holy Ghost Spirit to pray concerning this issue of time. While praying I felt myself starting to be pulled into the portal opening, my whole body physically and spiritually. The Holy Angel Seth took my hand and said, "I will lead you." Then we both entered the portal and the scene changed.

Next Scene:

The Holy Angel Seth and I are standing in a solid white room. There weren't any windows I could see. But there is only one door that's solid black in color except for the white writing upon it that says, "Computer Matrix Network." I looked at the Holy Angel in surprise. This was not what I had expected. He raised one eyebrow as if slightly amused by my reaction. Finally he asked, "Daughter of Heaven's Court, of Zion, what were you expecting?" "I don't know Seth, but I was sure there would be more to it than a room with one door," I replied. "Does not everything have an entrance? We simply need to go through the gateway door before us to access fully the computer matrix. Once we do, we will be able to gain access into the central processing unit or the CPU it's also called, as well as the graphics processing units controlling the 3D world systems of the kingdom of darkness."

"In addition," he continued to say, "through the power of the Holy Lamb of God's Name, you will be able to accomplish all He has called you to do inside these walls. For Daughter of Zion what most do not realize is that through such technology is how many souls are captured and sold with your nation America, but Babylon of old and new to Heaven, being the top seller of the souls of men," he finished saying. Then he added, "This is only second to your nation's selling and trafficking of children, their own and other nations as well to the highest bidder." He paused momentarily then spoke again. "Your nation is evil, yet there are those like you who love and serve the Almighty God of Heaven Faithful and True through His Son Jesus of Christ."

I looked at him intently then said, Seth, "All souls belong to God." "You are right, Daughter of Zion and of Heaven's Court, yet you hear all throughout your world of reports of how people have sold their soul to the devil." "But you can't sell something you don't own if it's not yours, or can you?" I asked him. "The soul itself is property of the Holy Lord God Almighty Yahweh. It does not belong to another. Through trickery, lies, and deception the devil and his kingdom will make people believe they have sold ownership of their soul permanently to the dark kingdom. When in fact the soul of a man is the very breath of the Almighty God Himself and no one can

own God! But inside this breath of God placed into mankind is the soul's mind. This is not the spirit mind in which natural instincts of survival are instilled. The soul's mind is the part of man's mind where he can think. Where he can make choices and communicate with his Creator or other spirit beings both good and evil."

He continued, "Mankind is actually spirit beings inside a body of flesh. You know this Daughter of Zion. What a person is doing when they sell their soul to the devil is by choice giving them the right to control what their soul does while on the Earth. It's selling the use of your soul into slavery. Although mankind, the men and women who do this, do not realize it until they've been set free by the redeeming Blood of Jesus Christ, Yeshua Ha' Maschiach when they repent of their sins, renounce the kingdom of darkness and accept Him into their heart as Lord and Savior. This breaks all contracts a person has made relating to their soul's use and sets it free, for who the Holy Son of God sets free, is free indeed." "I understand what you're saying Seth, but how do you sell these souls?"

"Daughter of Heaven's Court, you do this by trapping men and women of your world into making a deal, an agreement with the kingdom of darkness. This is done through low-level demons and then all the way up to the fallen ones. When one makes a contract, an agreement or deal with the lower levels of the demon hierarchy which is the most common because many are initiated into worshipping the fallen ones and demons through them, then these are those that their contracts are sold to other people, to nephilim and such like even in other lands. Many do not realize what they have done while others do. When you sell the right of control of your soul while you're still living by your choice of your soul's mind, then once sold or once the agreement is made you are 'on call' as your world says at all times to do the bidding of who ever now owns the contract, agreement or the control of your soul. It can be a witch in another country or even someone like a high-ranking official in the Illuminati. It's through soul traveling also called spirit or astral traveling they will be called upon by those holding their contract or agreement to do their bidding."

"Some people who have sold control of their soul while living on the earth do not realize it and while they sleep their soul can be legally pulled out of their body and forced to do the kingdom of darkness' bidding. As long as the spirit and soul are still connected to the person's body by the silver cord, the silver cord of life, they can re-enter their body when their assignments and tasks are completed. To ensure that their body and silver cord are protected, demon spirits will remain in the person's body, for all who travel in the spirit realm by evil means have agreements with lucifer, the devil and his kingdom and will have some type of demon spirit activity in their lives," the Angel Seth finished saying. "Woah," I said out loud as all that the Angel of God had said sank into my mind, finally bringing understanding to answers I have long been seeking. "Thank you Jesus Christ," I exclaimed! I looked at the Holy Angel Seth with a smile then stopped as I realized I still needed an answer for more questions I had. "Seth, how do the militaries, governments, and the kingdom of darkness use the 3D world to trap these souls? It goes deeper than just ensnaring a person for control of their soul doesn't it?" He looked at me with a serious look, more serious than before, came upon his holy face.

"Daughter of Zion, of Heaven's Court inside the 3D world of false reality, whether it's through a game, a scenario of an island hideaway, a perfect marriage with an AI spouse, a trap is laid

inside. These are hidden ones to get agreements and contracts from all who enter, but Daughter of Zion, the real danger more so than these agreements is that as man gets used to making choices and decisions that affect their lives in these pretend 3D simulations of worlds, games and scenarios they are being prepared in advance for some to be offered the mark of the beast inside this technology. Although they cannot receive the mark itself inside such realms as a 3D world, the deal, the decision can be made to take it. This means that in reality after they leave the false 3D world of simulations they will then go and take antichrist's mark of the beast. What he will also call as his mark of loyalty. Once someone is inside these 3D simulations of false realities of the kingdom of darkness the mark of the beast can be doled up into a pretty package with fancy bows to make it appear more desirable than it would in real life so that a person can be driven by the powerful imagery of deceptive graphics and emulations now in their mind to take antichrist's mark."

"That's brilliant," I said! "Well I don't like saying that but it is a brilliant way of doing it." He looked at me for a moment then replied, "Yes Daughter of Zion if you like being deceived because it's all deception. It's trickery of the mind of man and manipulation by familiar demon spirits inside and out of the computer and systems working at the same time to deceive mankind." "Oh, when you put it like that, yeah, that ole lu lu..lucifer for you," I said quickly. "Thank you for explaining this to me Seth." "You are welcome, but please direct your thanks to the Almighty Holy Lord God of Heaven, Majestic and True and His Son for it is by Their command I have revealed this information to you. Now Daughter of Zion, we have a mission, a holy assignment to complete. We need to proceed." "Yes, I agree," I replied.

He motioned me to the black door. I walked to it, turned the door knob only to find it was locked. "Seth, it's locked!" I said out loud. "Daughter of Heaven's Courts, do you not hold in your possession the Kingdom keys of Heaven given to you from Jesus Christ Himself when you became one of His children?" He asked in a firm voice of authority. "The keys," I said out loud as I looked down at my hands. I was still holding the black eraser in my left one and the keys were in my right hand. I looked at the key ring of every kind of key in existence I knew somehow and asked, "Which one Seth?" He replied patiently, "Daughter of Zion, you do not have to pick out which key. When you need to use a certain key, Heaven knows already which it is, but you do have to activate the keys through Jesus the Christ, Yeshua Ha' Maschiach's Name and authority." "Okay," I said as I placed the black eraser in the back pocket of my jeans then raised the key ring full of keys near the door knob's lock and said in faith, "In Jesus Christ Name I use the Kingdom keys of Matthew 16:19 to unlock this door." I watched in amazement as the whole key ring formed into one key, the key needed for this particular door. In faith I inserted it into the lock and it opened immediately. When I removed the key it instantly returned to the shape of Heaven's key ring full of keys. "That's amazing," I cried out!

The Holy Angel of God smiled and said, "That's the power of the Almighty God of Heaven that's been placed into His Son and His Name. You may proceed, Daughter of Zion and of Heaven's Court," he then said. "Wait! Am I going in alone?" I asked. He gave me another patient smile as he said, "Daughter of Zion, the door is narrow and made so only one of us in my current form can pass through it at the same time. Since you are already in front of the door and I'm to remain with you at all times, it's simpler for you to enter first. You are protected. No harm will come to you." "Oh, I thought from your words you were sending me the rest of the way alone," I said

sheepishly. "No Daughter of Heaven's Court and of Zion, the King of kings, Jesus the Christ never lets His children go anywhere alone, even though you don't always see our presence that is with you." I looked up to the white ceiling of the totally white room except for the black door and said out loud, "Jesus Christ my Love thank You for being so kind and patient with me." I heard His warm reply from the Heavens, "You are welcome Daughter of Mine." I looked down at the now full keyring again, still amazed by my loving God. Then I put them back into my right pocket of my jeans, realizing again as I did they had shrunk in size to where they would fit inside my pocket.

"Hey, Seth since we're inside a computer network does this mean this door was like their computer gateway of passwords and firewalls that the Name of Jesus Christ and His kingdom keys just took down and unlocked by one simple command of faith spoken in His Name?" "Yes, that's what it means," he replied. "That is totally awesome," I couldn't help myself from saying with a smile. I started to proceed then stopped again as I said, "Oh wait! In Jesus Christ Name there will be no retaliation, evil actions, backlash or any such thing from the kingdom darkness for what I'm doing here tonight for Father God and Jesus Christ's and also for my brothers and sisters in Him and those still to come. I bind the kingdom of darkness according to Matthew 18:18 from doing so in the All-powerful Name of Jesus Christ my Love in all Father God's existence and knowledge." I looked at the Holy Angel and said, "Now I'm ready to proceed....wait. I didn't pray for traps and triggers to be removed. Jesus Christ I asked You to please remove all traps and triggers and such like." Once again I heard His reply from the Heavens, "Little Daughter of Mine, I have already done this through the Holy Angel Seth. You are able to proceed safely, beloved Daughter." "Okay," I said and without any further hesitation I opened the door and walked through it.

I'm immediately hit by bright light but it's harsh, not soft like the brilliant light that shines at times from my lovely Jesus Christ and the Holy Angels of God like Seth who I could tell is behind me. I felt his hand on my left shoulder as he said, "Daughter of Zion your eyes will adjust in a moment to the light. The 3D realm even in its programming is made for spiritual beings, not physical ones. You are still fully in your physical body. This is not supposed to be able to be done by the kingdom of darkness' calculations," he finished saying. "I'm sure if they find out I've been here they'll be very upset. Especially since they think it's impossible," I said as I waited for my eyes to fully adjust to my surroundings. I could tell by the sound of his voice the Holy Angel Seth was smiling as he said, "Yes, the fallen ones, in believing their own lies at times forget that in and out of the reality of time that nothing is impossible for the Holy All-powerful God of Heaven and His Righteous Son, Yeshua, Jesus the Christ. In addition they underestimated the power and gifts of the anointing of the Holy Spirit you as one of the witnesses operate in. Even now these things have been kept as mysteries hidden from them much like the Holy Lamb and Son of God's identity remained a mystery to them until the time of revealing was declared inside this firmament."

My eyes have fully adjusted as I looked at the Angels Seth who had been speaking. "Our God is amazing Seth," I said softly in response to all he had shared. "Yes Daughter of Zion, He is," he replied. I looked around again and said quickly, "Well this is not what I was expecting either." Instead of a 3D graphic world of imagery and illusions I am now seeing rows of numbers and lines of codes all around us. And doors, more doors with a complex maze leading to each one.

The focal point of the bright harsh light seemed to come from the center somewhere of all this maze mess, I instinctively knew in my thoughts. I heard the Angel Seth answer my thoughts, now able to hear them once again. "That would be the central computer's unit's hub, the CPUs. The demons that inhabit these systems mainly reside in these such locations. The AI artificial intelligence should be properly labeled as evil demon spirits," Seth the Angel said as he pointed to a door that was up and to our right.

"That, Daughter of Zion, of Heaven's Court is where we are to begin. Behind that door you will have access to the files that have been compiled over the years by the kingdom of darkness and the intelligence agencies from all over the world of names of people, their families, their life histories and such like that are considered threats to the new world coming in which antichrist shall rule. There's not much time before he rises fully so we need to do this now. From here we will go to the next location and do all the Holy Lamb of God has instructed you to do for His kingdom and His children in His authority." "Okay," I replied, "I'm ready Seth, let's do it!" "Yes Daughter of Zion," he replied, "let's do it." He led me through the rows of numbers and codes of the computer matrix as we walked to the door he pointed out to me earlier. I realized I was beginning to understand the matrix coding system and with this information and knowledge from my lovely Jesus Christ I knew I could use it like a map to traverse through such like systems as needed when called me to do so by Him.

When we arrived at the door, I asked Seth, the Holy Angel, "Will I ever enter the 3D fake reality world of make believe in simulations that other people do if I'm to share the Gospel of Jesus Christ with them?" He looked at me for a moment then pointed to another area of the computer matrix system farther away than I could see with my eyes and said, "Yes Daughter of Zion and of Heaven's Court, but you will have entered through the graphic computer unit, the GPU and not this one. Know this Daughter of Heaven, each child of God who has accepted Jesus Christ, Son of the Living God as the Lord of their heart and life all possessed the ability to use Heaven's Kingdom keys of Yeshua. There is no door, no lock of any kind in all the existence inside the created firmament and out of it that these keys won't unlock when one of His children need to pass through. The only exception are places the Holy Righteous God of Heaven keeps locked Himself which include more hidden mysteries yet to be revealed in your world. The Kingdom keys are able to unlock these things, but they are simply restricted not to open them by His Holy command."

"Seth, I don't believe that a true child of God walking in faith and obedience who truly loves Father God and Jesus Christ would try to unlock something They don't want unlocked, because these would be those who have a close personal relationship with Them, who are being led by Sweet Holy Ghost Spirit and have no ties to the kingdom of darkness," I finished saying. He smiled at me and said, "You know well yourself how your love for your Savior and Lord keeps you seeking to walk in humble obedience to Him and to the Great God and Creator of Heaven," then he pointed to the door and said, "now Daughter of Heaven, please open the door with the Kingdom keys you hold in your possession." "Ah yes," I replied then asked, "when do I get to use the eraser?" "In a few minutes," he responded.

Once again I walked up to the door and pulled out the Kingdom keys. I held them to the door lock which looked like a slot for a key card and said boldly, "In Jesus Christ's Name I use the

Kingdom keys to unlock this door without any alert or alarms notifying the enemy." The keys in my hands quickly took the needed shape of a key card and immediately the door unlocked and sprang open. I didn't hesitate this time and walked straight into the room with the Holy Angel Seth following after me. "Whoa," I said again. There before my eyes was a large room. Inside it are rows of numbers in some places, with strings of code that took on the shape of filing cabinets. These filing cabinets I knew were full of the important information of those that were considered dangerous to the new world order's rise to power, with the majority of the names and information compiled I knew, belonging to those who confess and believe in my lovely Jesus Christ. I looked around in awe but horror too. The room was massive!

"Seth, which ones," I asked? "Daughter of Zion and of Heaven's Court, per the answers to your prayers and verdict from Heaven's Court all of them but 10% which would be those," he said as he pointed to a selection of filing cabinets shaped out of rows of numbers set off from the rest of the others. "You had better get started, Daughter of Zion, you have much work to accomplish this night in the Name of Jesus Christ, Yeshua Ha' Maschiach the Risen Lamb." "Yes, I do and I do it all for the glory of Father God," I said with a smile and then asked, "now can I use the eraser Seth?" "Yes, Daughter of Zion, now you may use it," he replied with a smile. I quickly yanked out the black chalkboard eraser out of my back pocket, knowing that it had been enhanced by prayer and the power of Jesus Christ's Name. I gave the erasure one more quick look then glanced up at all the filing cabinets before me. "When I'm finished Seth, can anything be retrieved?" I asked quickly.

"No, no it cannot by orders of Heaven's Courts. The kingdom of darkness will have their 10% to use and from there they will have to regather and rebuild their collections of information and file systems without anything they had prior. Because when you petitioned Heaven's Court you asked for full and complete removal of all such like information gathered including what was collected by all fallen angel knowledge and technology. Even those that manipulated time and allowed glimpses into the past and future of all types and programs. All these things are to be erased and permanently removed from their possession. At the closing of your petition and request you requested and said, 'Let this petition and request be made in all Father God's existence and knowledge.' This is recorded in the record books of Heaven. You delivered this petition in the Holy Lamb of God's Name with Him standing by your side as Holy Advocate. Even though in your appeal and petition you requested that the kingdom of darkness not be allowed to make an appeal if it was granted, inside of your petition was made allowances for the kingdom of darkness, lucifer's kingdom to still be able to operate. By formally requesting they be left the small amount of 10% of gathered and collected information by Heaven's choosing and for the other 90% of of all information requested to be permanently removed, this would allow the Written Word of God to be fulfilled and the kingdom of darkness to be able to do what was needed, thus fulfilling all requirements of Heaven. As recorded in Heaven, you knew if granted your appeal and petition would aid your brothers and sisters in Christ left behind and those to come to have a better chance to get to safety and possibly hide themselves from what is to come"

"In simple terms Daughter of Heaven," the Holy Angel Seth said, "since your petition was fully granted, it simply removed all the requested information and details from the hands of the man of sin and his beast system where they no longer have a head start beforehand in gathering up the Holy Lamb of God's left behind children. This was a fair and just petition made out of love for

others that weighed the balances for each side and what was needed. This Daughter of Zion, of Heaven's Court has been granted but you only have this one night given to accomplish this task. So if needed, I will return again to you this night until the task is completed or time has expired. Do you understand," he asked me? I looked at him intently and then said, "Yes I understand," and I took the eraser in hand and said boldly, "In Jesus Christ's Name let all be done that was granted in the petition."

I've bent down and with eraser I begin erasing portions of the filing cabinet closest to me. I watched as with each swipe of the black eraser, rows of numerical numbers vanished quickly away into nothing. I didn't stop using the eraser until every bit of the first numerical filing cabinet had disappeared. I worked quickly and steadily as I prayed in Jesus Christ's Name the whole time as the Angel Seth kept watch over me and the room. Finally, in triumph I looked at the almost empty cabinet filing room knowing all this information had been wiped out of existence of the enemy systems everywhere inside of this created firmament by me and one little 'in Jesus Christ's Name,' prayer enhanced black eraser with my lovely Jesus Christ's help. All that was left was in the record books of Heaven because all must give account of their doings both good and evil on Judgment Day. I heard the Angel Seth speak to me once again. "Come quickly Daughter of Zion do not forget they're more locations still to use the eraser on to wipe out the data in the enemy systems." "Will we make it Seth," I asked hopefully?

"Daughter of Zion of Heaven's Court," he replied encouragingly, "nothing is impossible with the Holy God of Heaven we both serve. Do not forget you are a Keeper of Time. It will be accomplished, but how many times it takes for me to return to you this night and take you to location to location depends on how fast you work and control your time." "Then let's keep moving," I exclaimed! "Let's go to the next location. This one is finished isn't it?" "Not yet," he replied, "because even though this room is finished, there's still more filing cabinet rooms like this one at this CPUs location. I will lead you to the next room." We arrived quickly at the next location with the Holy Angel Seth leading me through the labyrinth of mazes of the computer matrix and network. I used the Kingdom keys once again and after entering the room began using the prayer enhanced eraser to wipe out all the numerically made rows of filing cabinets containing information for my brothers and sisters in Jesus Christ and those to come. As I erased the last designated filing cabinet in the room I commented to the Angel Seth, "Father God always does His part in this covenant, but He does expect us to do our part as well." He replied quickly, "Yes He does. A covenant is made between at least two parties with each agreeing to do their part. This is how it was created to be."

I'm not sure how many rooms we visited at this location, so focused was I with the job at hand of using the eraser to wipe out this information for Father God and Jesus Christ but as we started to go to the next one I was surprised when we travel in what Seth called, 'lines of interconnectivity' which when I questioned him further I heard him reply, "This is what you call the internet highway inside the network of the worldwide computer systems." "Why aren't we using the portal?" I asked him. "Because Daughter of Zion, of Heaven's Court I am also instructed to show you how when inside a computer system network and all its workings and sublets, should it ever be needed, you know in advance how to utilize travel this way." I determined to myself most likely I will need to know otherwise I would not have been shown. As we reached the next location, I began to wake up.

I heard Seth the Angel say, "Daughter of Zion, rest for a moment, the King of all glory, Jesus the Christ shall renew your strength. I shall return two more times during this night and we shall be able to complete all that the Great God of Heaven, His Son Jesus Christ, Yeshua Ha' Maschiach and Heaven's Courts have granted in your Heavenly petition. The effects of all that's been done this night will be immediate in the kingdom of darkness' computer systems and information storage systems from the past and present. This includes any stored information seen by glimpses of the future and past by fallen angel knowledge and technology of every known sort to the Great God of Heaven's knowledge and in His existence."

"Do not be concerned," he continued, "you have bound the enemy in the Great Name of Jesus Christ, the Son of the Holy God from any evil actions or forms of retaliation. Chains of confinement are already being prepared and will be placed upon the members of their kingdom who have the power to retaliate and respond so that they cannot do so. These chains will still allow them to perform their other duties of their kingdom, but binds and restricts them from being able to perform or order others to retaliate for your actions. Such is the power of Jehovah God the Great I AM found inside His beloved Son's Name given to you to use as His child. As you have requested that no evil actions or such like that pertains to you or your family directly, indirectly and randomly," he finished saying and then I came fully awake.

I had this dream two more times after the first time with only a few differences. These differences were the other locations inside the enemies AI systems, the computer central systems, their CPUs, GPUs and such like the Holy Angel Seth and I traveled. We went from place to place, location to location, in the waters, in the skies and ground, above and below, until I knew we had covered the whole created firmament wiping out every numerical filing cabinet allowed out of existence with this one little black eraser covered in prayer in the power of Jesus Christ's Name for the glory of Father God in Heaven. I praise You Jesus Christ. Father God, I praise You. Thank You so much for answering the prayers of those who put their faith and trust in You and in trusting someone like me with such a great work for You. What a night my lovely Jesus Christ! What a victorious glorious night in You!"
