

Your Time Has Come, O' Harlot City of Manhattan 8-8-26@6:48 AM

O' city of Babylon, harlot city of Manhattan, your day has come.

Surely, I shall bring the evil of all I have spoken against you, for you have refused to repent and stiffened your necks more against your holy God and Creator. I will not turn back from destroying this city for so vile has she become.

Hear, O' world, the time has come to witness and behold My fury and anger upon Babylon-America's city of Manhattan who sits as a queen, the head of all evil, subverting nations, destroying people's lands, taking their freedom, and enslaving its own children. Those who they do not kill inside the mother's wombs. Then making slaves of them for the perverse enjoyment of men, women, and inhabitants of your world who seek to defile them before they murder them. You are a vile nation and a cruel city of lights that never sleeps.

I say, it's time for your lights to be put out permanently. I am against you O' destroying city, O' destroying nation of America-Babylon. Woe has come to your nation's front door.

After I destroy your harlot city, I shall move the nations against you in My boiling rage. I shall not relent, nor repent of the evil I shall raise upon you. Your wickedness shall finally be removed from a position of power.

I shall gather Putin's forces, combined with those found within his evil coalition after you are attacked from the sky with nuclear weapons and other by My command, and this plague of fire from your evil self-made weapons shall begin the purging and cleaning of your nation's soil before I sink her into the waters below. These are weapons many nations have created from the knowledge given to them by agreement they have made as nations with the angels who fell from heaven win by choice they fell into sin.

You will not fall completely O'evil, wicked land of Babylon-America, for I have some of My own who shall still be inside your border walls. Nor will your harlot city fall completely when I allow this fiery plague of nuclear weapons to be used to destroy you O' vile city. Because you are so evil, your crimes so heinous against My created people, your rebellion is so determined against Me, your Savior, your Holy God, I shall also allow the plague of nuclear fire O' harlot city of New York's Babylon-America to strike you again.

When the detonation of the 10 rogue devices hidden in the black suitcases finally are released inside your nation's walls after the three days of darkness is fully lifted, you will burn again until you are utterly destroyed by My command. As this is also found written in My Holy Word.

Your open worship of baal and other false gods has now made you appear in the eyes of the nations a mockery. Your two-facedness is apparent as your nation's money states, 'in God we trust,' while you openly display a false god in the waters of Manhattan City's edge.

Your sorceries and witchcraft...

Your schemes of blackmail against nations...

You're joining to satan, to lucifer, binding the use of your souls for the dark kingdom's use....
You sell your own children as prostitutes...
While eating the flesh of babies and drinking their blood....
You devised plots to tear down other nations...
And wage war on others when something they have you desire, so you can come in and take it
forcibly and unseen, while displaying to the world it's an act of aggression needed to maintain
world peace.

Harlot city of Manhattan where financial transactions and world trades and deals are held....
Where nations meet in a grand building built on the bones of the innocent to enhance your
so-called demon and witchcraft protection....

You are nothing against Me, your holy God and Creator!

All of Heaven and many of the Earth shall celebrate O' destroying mountain of
Babylon-America, land surrounded by many waters and your evil harlot city of New York's
Manhattan when I give the command for your imminent destruction to finally come to fruition.
No longer spoken into existence alone inside your created firmament, your world's spiritual
realm, but now I command it to be brought to full fruition this day, for it now to occur in your
physical one.....It is done!

Your time has come, O' harlot city of Manhattan. Prepare this day for all that has been spoken
against you to begin its descent upon your evil, wicked, rebellious heads. I would have forgiven
you of all your sins. Now mercy is no longer granted except for those who are Mine. I start this
now. Your time has come Babylon-America. It has come!
