Constantine, Back to the Future, NY & # 88 Dream 10-27-26 to 10-29-26

Lord Jesus Christ I dreamed the same dream again from the night before I had been praying about. I have been seeking Your understanding and asking for clarity. Lord, once again it has parts from the Back to the Future movie but all 3 movies this time. In addition it has information about Antichrist, his Pi date, his number 88, the revived Roman Empire and so much more. It discerns again as being from You when I tried and tested it as well as by others. With Your help Lord I'm here to finally finish writing it fully out this morning. Please don't let me write one word that's not from You I ask in Your Great Name.

It began when I found myself looking at a golden eagle with outspread wings that was connected to a pole. It was being carried out into a battlefield of Roman dressed soldiers. They're in the midst of a battle. I saw a chariot I recognized as seeing before that had on the side of it the sunburst with a man's face. I knew this was the leader of the army that won the battle that I had witnessed in the past. I watched as the battle raged between the two opposing armies that were fighting with spears, swords, knives, and slingshots. The slingshots had a pouch on them to hold the rocks or whatever they're throwing. When they would launch a rock it would make a whistling sound as it went soaring through the air.

Suddenly, the tide turned and the army with the gold eagle on the pole and the leader in the chariot with a sunburst on its side overtook the other army with many of the opposing army soldiers fleeing. I heard once again the chanting of the name Constantine, Constantine the Great. This time I watched as a leader named Constantine drove his chariot in a victory circle. I was able to say that on the other side of his Chariot was a different picture. It was a roughly painted image of a figure of a man wearing laurel leaves on his head. He had a lightning bolt in his right hand and under his right foot was a round ball that reminded me of a globe.

Suddenly, from the heavens I heard these words spoken out loud. "The antichrist, the man of sin, seeks to revive the Roman Empire. It's out of their roots he springs forth. It's within the Roman Republic Empire how all these things are connected from the calendars, the movies, the moon to the coming attack to be in Manhattan's New York City. As it has become known the enemy will always flaunt their plans openly so those in their kingdom watching will know the timeline of their plans without fear of discovery, betrayal, or leaked information. While they laugh at the public who entertain themselves paying to see and, or participating in supporting the enemy's evil actions unknowingly. Here is wisdom! Pray for eyes to see the hidden truths within all things and ears to hear the true understanding." "I do," I cried out, "I pray in Your Name Jesus Christ for eyes to see the hidden truths within all things and ears to hear the true understanding." "Granted, now proceed," the voice from the heavens declared, then the scene changed before me.

I'm standing outside looking down at a grassy field in the night hours. I noticed immediately and I'm not in a modern populated city. I heard the sound of low murmuring voices so I turned to see where they came from. I saw it was a man and a woman outside sitting on horses. I looked around and noticed I was near a building that looked like something out of pioneer days, like the time of the West. I fully focused my eyes in the dimly lit light on the building to see it looked like a schoolhouse. It looks oddly familiar as if I have seen it before, but not exactly as it looks now. It is painted red with a white door and white trim. The door was in the middle with two

windows on each side. Before I could examine it any further one of the voices became louder. It was the woman's and she called out the name, Emmett. That immediately caught my attention as my mouth dropped open in surprise. I returned my full gaze upon the two people on the horses once again. I recognized them immediately. There before me was Doc Emmett Brown and Clara Clayton, the new school mistress from the Back to the Future movie number 3. Although I was looking at Doc Brown's back, it was easy to distinguish it with him by his white hair. He was not wearing a hat and appeared to be dressed in some type of western suit. I recognized it from the movie.

"What's going on here?" I asked myself as I continued to watch. Their voices were still in a low murmur so that I was unable to distinguish any more of their words. Suddenly Doc leaned over and kissed Clara, and just like in the movie, there came a falling star at that moment in time. "I wonder if that's supposed to be a real falling star or does it symbolize a fallen angel, thus identifying to those who know to watch this is their doing?" I asked within myself. Then I said, "I certainly look at things a lot different than I used to. Thank You Jesus Christ." But it wasn't the falling star that now held my attention, because it was long out of view, but the moon itself. It was still very big from recently being full, but was already beginning to decrease in its waning phase. My eyes became transfixed on it for some reason as if I couldn't look away even if I wanted to. Then I heard the same voice from the heavens above as before say out loud, "It's within the quarter Daughter and not without as I have shown you. Did not I tell you also, that it's within the quarter when all these things had a start, but also the, 'it's within the quarter,' is not for one occurrence alone. Look for the Moon for the answers because the lightning strike is about to strike the tower. Remember what I have shown you thus far. Antichrist is the missing piece as I revealed to you, but so is his reviving of the Roman Republic Empire. Remember in his schoolhouse with the Pi 314 date, the 88's, and poster calendars on the walls that which he has used. Go back and apply the final one, his calendar of the empire. Then go back to 1985's beginning where the enemy has flaunted their attack and another which has already occurred for all the world to view as entertainment, then you will know what you seek for." After these spoken words, the scene changed again.

I'm sitting at a table with my notebook before me. I know somehow I have been through all three of the Back to the Future movies collecting important information that was pointed out to me by the Holy Ghost Spirit. As I'm sitting there looking at it, I begin to pray. “Jesus Christ what is it You're wanting to show me? How does all this apply to antichrist and his revived Roman Empire, the calendars, Pi 314, # 88, November 12, and the coming attack of New York Manhattan. I know they're all related somehow. I begin looking through my notes. My eyes fell on a quote by Doc Emmett Brown from Back to the Future 2 that every time I have watched the movie it caught my attention. It was after Marty told him they had to go back to November 12th, 1955 because that’s when old Biff gave his younger self the Almanac. He said, “Unbelievable, that old Biff could have chosen that particular date. It could mean that that point in time inherently contains some sort of cosmic significance. Almost as if it were the junction point for the entire space-time continuum. On the other hand, it could just be an amazing coincidence.”

I looked at the quote again with its key reference point being November 12, the day the lightning struck the courthouse clock tower in 1955 at 10:04 PM. “Hmmm,” I said thoughtfully, “The way Doc said this seems to be saying, ‘It’s a “temporal catalyst. It could be a date so pivotal that

altering it could ripple through history in dramatic ways. Another way of saying it would be it seems to be suggesting that the date of November 12 being junction-like could be a moment where the timeline is especially sensitive. Boy, this November 12 date is everywhere," I said to myself. "It's like it's saying that November 12, 1955, might be a key turning point in the universe's history, where even a small change could alter the course of events. Sounds to me like what the occultist, wiccans and kingdom of darkness say about the thinning of the veil between the physical and spiritual realms being on Halloween. This is a pivotal moment in their evil worship. I wonder if they are connected since we also have October 25, 1985 as the very first date in the first movie. Then there's October 26, 1985, October 27 also in 1985 when the DeLorean time machine car is finally destroyed. There's October 21 and 22 in the year 2015, January 1, September 1st all the way to the 7th in the western year of 1855. Doc ended up in the pioneer days of the west, just like we all are going to during the tribulation. I think they must have seen a glimpse of that too when they had the looking glass technology and chrono visor and other such like in their kingdom's possession. There's more dates here." I said thoughtfully, but how does the roman republic calendar apply if antichrist is trying to revive the empire. He's used it before when he had first set his Pi 314 day #88 attacks which he later changed, but it still occurred by videos sent in Lego movies by the Iranians."

"The Iranians…just like the muslim Libyans wanting Doc to make them a nuclear bomb in the first movie and what will be used the second time New York's Manhattan is attacked. Hey wait! The fiery 11's left by the DeLorean when it travels through time…if it's antichrist's beast system behind these in preparation for his rise to power, then the 11 is most likely the Roman numeral 2. I think it represents the 2 attacks told in these movies on Manhattan. The first one being 911 that's hidden all throughout the movies, including actual pictures of the twin towers on the window screen pictures in number 2. But I'm here to focus on the other meaning. Lord Jesus Christ, please help me not to be led anywhere I don't need to go with all this information I ask in Your great Name," I prayed as I flipped through the many, many notes I had written. I have a note here that in movie number 2 the man named Needles that Marty had a conference call with lives on 88 ORIOLE Road. A6TB-94. The #88 is used often in the occult and is one of ole antichrist's favorite numbers," I said when I saw this note. What I have noticed is the people who created the movie were very precise in their details except for one exception. One that is strange that they would make such a deliberate error. I think they didn't. I believe it is deliberate.

When Emmit and Clara kissed on the horses that I had seen earlier my focus was drawn to the moon. It was still partly full. In my prior research, this moon phase should have been in reality a waning crescent with about 11% illumination. I picked up my cell phone and searched the internet. "Just as I remembered. The so-called error moon was in fact a waning gibbous moon that was around 64 to 67 % full. So, the moon phase is waning and is within the quarter," I said thoughtfully. Prior I have also been shown an almost full moon that was waxing, meaning it was increasing in its light to becoming full. I was told this was also, 'a start,'of all these things. "Lord Jesus Christ, You said the, 'it's within the quarter,' is for more than one event. If the one becoming full is the start of something, which event is it?" Maybe I should check more moon phases in the movie? I have found that all the dates and clues seem to lead back to the first movie. What's the moon phase for October 25, 1985, the start of these 3 movies and the hidden plans inside these movies. I searched again on the internet. When the results came up, I went into one site after another just as I had done with the moon for the Clara-Emmett scene. The 1985

moon is a waxing gibbous moon and is almost full like I have seen often. Both these moon phases are within the quarter moon phase and not without. If the waxing gibbous is the start of their plans, then most likely whenever the attack on New York Manhattan is to occur it will be possibly a waning gibbous like with Emmett and Clara's scene. I know the Lord Jesus Christ is pointing it out for my attention to be drawn to it. "Is this correct sweet Holy Ghost Spirit, I ask in Jesus Christ's Name?" "It is Daughter of Zion," came His swift reply. "Thank you, but where do I go from here?"

"Remember Daughter of Zion, the Roman Republic Calendar has 355 days instead of 365. This will need to be utilized in your final findings of what you seek." "Oh, yes, thank You," I said to him quickly. "In the Roman Republic calendars the amount of days in a month were different from the Gregorian calendar of today.The Original Roman calendar began in march and had 10 months but since it's the republic calendar that would begin in January. Although ole antichrist likes to use them both to try to confuse anyone from finding out his dirty secrets and evil plans," I said out loud to myself. Okay let's see, the months ran as follows. January 29 days, February 28 days, March 31 days, April 29 days, May 31 days, June 29 days, July 31 days, August 29 days, September 29 days, October 31 days, November 29 days and December 29 days. Some of the months had different names but also can go by these names. That's a total of 355 days.

"Hmm, I wonder how I should apply the Pi March 14 which is March 14-15 from evening to evening in a creation day. Maybe as the number of 314. 3.14 is the Pi number used to plan these attacks in the past. If it's truly antichrist's plan of attack Pi would have to be hidden somewhere inside the movie, I would think. If I subtract 314 the Pi value from the 355 days in the Roman Republic year it leaves me an amount of 41. They've actually also been using the Gregorian calendar in these Back to the Future movies. What if I take the 41 value and subtract it from the Gregorian's 365 day amount? That gives me the sum of 324. That's 10 days off. Wait! If I now adjust this amount by subtracting the 10 day difference between the Gregorian and the Roman Republic, then I would end up with the total of…yes, there it is…314.

"Lord Jesus Christ, Thank You." I heard His soft reply, "You're welcome Daughter of Mine." "This is the way the kingdom of darkness jumps from numbers and calendars to try to keep hidden their presence inside things. What else do we have? Well, well well now that is very obvious. In Back to the Future 2 Marty's Father's tombstone said he was born on April 1, 1938 and died on March 15, 1973. In a creation's day, March 15 is the ending evening for March 14, the Pi day but also if I subtract the April first day one value from the March 15 value it also gives me March 14. Okay, it's proof of the pi date's involvement. Let me go to something else," I said quickly, again speaking out loud to myself.

I flipped a page in my notebook and after reading for a moment I said, "Oh yeah, that's right. In the second movie when you count from October 21 which is in the year 2015, to November 11 there are 23 days. If you dropped the 10 days from the 1582 Julian calendar when they changed to the Gregorian which also happens to realign the days with the Roman Republic calendar you get November the 12th. This is the catalyst day as Doc had said, but the real date I believe is shrouded in the hidden deceptions of the fallen ones and antichrist. Luke 8:17 I pray in Your Name Jesus Christ," I said quickly out loud. I began reading more of the notations I had made for all the movies out loud. "The song 'earth angel' was played in the first movie. This is a direct

link to the angels that were cast to earth. The 2nd movie's cop car had 911 on it and it ends with 2 flaming 9's where the DeLorean with Doc on November 12th, 1955 was struck by lightning and he was sent back to January 1, 1885. In the middle of 1885 is the number 88 again. The number 9 means completion so they mean 2 attacks will be completed, but if the 99 is flipped over it becomes the number 66. My notes showed that when I count backwards from December 31st in the Gregorian calendar that the 66th day lands on October 27th. October 27, 1985 was the last day, the end date for the combined movies and also the day the DeLorean was destroyed by a train.

Oh look, here are my notes I had about the radios. Marty's clock was a Panasonic RC 6015. In the first movie in Mary's bedroom as he was sleeping the time displayed on his clock was 12:27 but immediately flipped to 12:28. This caused his radio alarm to go off and it began playing the song called Time bomb city. I think it could be directly connected to the New York attack somehow, but I'm currently not sure," I said thoughtfully. For the clock itself, I have put the alphabet numerical place assigned numbers for the name Panasonic. P 16, A 1, N 14, A 1, S 19, O 15, N 14, I 9, C 3. So I now have the numbers 16, 1, 14, 1, 19, 15, 14, 9 & 3.

16-1=15 then 14-1=13. Then I added all the numbers together and the combined total was another big fat 88. "Lord Jesus Christ, who would believe the depths the enemy goes to hide stuff unless they're led by You in seeking thesis things out?" The giant amp in the first movie was a model CRM-114. The Alphabet values are C 3, R 18, M 13, so the numbers are 3, 18, 13 plus the other 114. My notes show the CRM comes out to the infamous 314 amount by these calculations.

3 18 13. I took the 13 and changed it into a 1+3=4. Then I subtracted the 4 from the remaining 318 to get the Pi sum of 314. Oh and Doc's Seiko A 826 clock comes out to the value of 1985. S 19, E 5, I 9, K 11, O 15. My calculation was 1959 +11+15 =1985. The A stands for antichrist and the 826 equals 88 by this way. The first 8 is the beginning 8 in 826. The second is by adding 2+6=8. The 2 single 8's make up another 88.

Another thing I had noted is that the Doc's DeLorean's 2015 barcode license plate in the 2nd movie has the numbers 1 3 6 1 1 3 9 6 6. When you add all these together they total 324. If you subtract the 10 day difference from the Roman Republic calendar which is also the same difference as the 10 dropped days of the 1528 Julian calendar the number total is 314 as in the Pi 314. In the 80's cafe Marty went into, the electronic waiter first displayed on the TV type screen was the image of Ronald Reagan, former US president of the United States. He was interrupted by the image of Iran's supreme leader Ayatollah Khomeini of Iran. They began to argue and fight one another. They were fighting, just like the US and Iran are fighting and in war today now in 2026. This could be a signal to those watching in the kingdom of darkness that this next attack happens when these 2 nations are in war.

"Let me see," I said as I looked quickly through the pages of my notebook. "I have broken down all the days and time spent that Marty was in 1985 but also traveling back into the future. It comes to approximately 19 days. The end date of the movie was October 27, 1985. If I count backwards 19 days it lands on October 8. Lord, Lord there's October 8th date that's connected to all these things. Let's see what else there is that I need to focus on. Why is November 12th the

focal point in how all these things interconnect including the information You gave me Jesus Christ about the Clock Tower of Big Ben being connected to the clock being struck on November 12, 1955. When Doc made his comment about the November 12th's date being of cosmic significance and the junction point for the entire space continuum he was clearly pinpointing this date as of great importance.

All 3 movies hinge on this date. The clock tower is struck on this date, and was the only possible date for Marty to return back to the future because he knew by the flyer he had with him when the lightning would strike the tower. Biff chose November 12, 1955 to take the Almanac to his younger self. Marty and Doc had to return to this same date of time to retrieve and destroy the almanac. It was on the same November 12, 1955 that lightning struck and sent Doc & the DeLorean back in time, which seems impossible since it was in the air and not traveling 88 mph as it hovered above Marty as lightning struck the car and the portal opened and he disappeared into 1885. So November 12 is definitely the targeted date, but how does the, 'It's within the quarter,' moon phases and the Roman Republic calendar all apply? Let me check the moon phase for November 12, 1955, Lord willing.

I reached for the cell phone once again and did another internet search. On November 12, 1955 the moon was at its waning crescent phase with about 4-5% to 11% illumination. Well, that doesn't fit the moons I have been seeing or what Charlie Kirk also said was the right time for the moon when I saw him shortly after he passed under a white tent. Let me try applying the 10 days difference to the November 12 date which is the date the clock tower was struck by lightning. For the Roman Republic calendar that antichrist prefers, I will need to drop the 10 days. This means I need to count backwards this amount of days. Let's see," I said as I began counting, "why, that lands on October 31. That's halloween. That's when the veil is really the thinnest between the spiritual and physical and that's why they do so much of their woo hoo wahoo witchcraft evil garbage."

"Can it possibly be that the November 12 date is also October 31st. Wait, wait, wait! Lord, is there anyway that October 3 can be October 31st?" I asked out loud. I pondered on it for a moment then said quickly. October 31 in a creation day would run from the evening of the 31st to November 1st's evening, but if it's October 30th, then the day would run from the evening of October 30 to the evening of October 31. Oh No. If I took the date of the 30th and separated the numbers into single digits, then I have a 3 and a zero. If I subtract the 0 from the 3 I get the number 3. I think this is pinpointing Halloween Day itself. Halloween is part of October the 30th but it is also part of November 1st spanning time in each day.

Let's see what the moon phase is for October 30-31, 2026. I quickly did another internet search and the color drained quickly out of my face. It looks close, if not the same as the moon phase of Emmett and Clara's kissing scene where the wrong moon phase had been shown. It's a waning gibbous the same as in the movie number 3. If this is the correct time, then Lord Jesus Christ there would most likely be something else that connects to this date besides just November 12th. Please help me, if this is correct, I ask in Your all powerful Name. Suddenly I hear these words spoken from the Heavens. "October 21, 2015." October 21, that's the date of the 2nd movie when Matry, Jennifer, Doc and his dog Einstein went into the future together. Let's see…October 21….hmmm, if I add the 10 dropped days from the 1582 calendar that gives me in the Gregorian

calendar a date of October 31st…halloween which is the second evening for the 30th in a day that runs from evening to evening as God created them to do.

Verses:
Ephesians 1:17-19; Ecclesiastes 1:9; 3:15; 7:19; Matthew 11:15; 13:9; Psalms 40: 6; Daniel 7:7; 19-24; 8:8-9; 21-23; Revelation 13:1-2; Mark 4:22; 1 Corinthians 2: 6-16; 3:18-20; Luke 11:32; 12:1-2; 21:25; Psalms 31:24; 33:18-22; Isaiah 21:4-10; 66:1-6; Jeremiah 23:19-29; Mark 8:34-38; Luke 8:17
